MESSAGE FROM THE DIRECTOR'S DESK

It is my pleasure to present the Annual Report - 2025 of ICAR-National Academy of Agricultural Research Management (NAARM), Hyderabad, which reflects the collective efforts and achievements of the Academy during the year. The report captures our continued commitment to strengthening the National Agricultural Research, Education and Extension System (NAREES) through capacity development, innovation, education and institutional support.

The Academy continued to pursue its vision of becoming a global knowledge institution enabling agricultural research and education systems to adapt to change through continuous innovation. Guided by this vision and our mission to enhance leadership, governance and innovation capacities, we have focused on capacity development, policy advocacy, research and education aimed at strengthening institutional excellence.

During the year, the Academy organized 48 capacity building programs, benefiting nearly 3,000 participants from across the country. These programs addressed a wide range of themes including leadership development, research and innovation management, intellectual property valuation, technology commercialization, project monitoring, and institutional governance. This year, the Academy organized two FoCARS programs (114th & 115th) for a total 212

probationers. Executive Development and Management Development Programs further strengthened the leadership and strategic management capacities of senior professionals in the agricultural sector.

The Academy also remains committed to strengthening farmer-centric knowledge dissemination and outreach activities. Programmes conducted during the year on integrated farming systems, value addition, natural farming and other sustainable practices have provided farmers and rural youth with practical knowledge and livelihood opportunities. Such initiatives reinforce the Academy's role in connecting scientific knowledge with field-level impact.

Our six specialized divisions – Agribusiness Management, Education Systems Management, Human Resource Management, Extension Systems Management, Information and Communication Management, and Research Systems Management – continued to play a vital role in advancing knowledge and skills in agricultural management. Through interdisciplinary initiatives, these divisions have contributed significantly to strengthening research planning, digital transformation in education, agripreneurship development, and the effective dissemination of technologies.

The Academy also remained committed to promoting innovation-driven agricultural development. Through research projects, policy dialogue, and collaborative initiatives, we have worked towards strengthening linkages among research institutions, academia, industry, and other stakeholders. Special emphasis was placed on integrating emerging technologies, digital learning approaches, and forward-looking management practices into agricultural research and education systems.

Another important focus during the year has been on fostering leadership and inclusiveness within the agricultural sector. Our programs have supported young scientists, academicians, and administrators in developing managerial and leadership competencies necessary for addressing emerging challenges in agriculture and allied sectors.

The achievements highlighted in this report are the result of the dedication and teamwork of the Academy's faculty, scientists, staff, students and

partners. I sincerely appreciate their contributions and commitment in advancing the mission of the institution. I also acknowledge the continued guidance and support of Hon'ble Secretary, DARE & DG, ICAR; DDG (Agricultural Education) and our collaborating organizations.

As we move forward, the Academy will continue to serve as a think tank for the NAREES and strengthen its role in building future-ready human resources and institutions capable of driving sustainable agricultural development.

Gopal Lal
Director, ICAR-NAARM

Date: 05-05-2026
Place: Hyderabad

EXECUTIVE SUMMARY

The Annual Report - 2025 of ICAR-National Academy of Agricultural Research Management (NAARM), Hyderabad presents an overview of the major initiatives, programmes and achievements of the Academy during the year. As a premier institution under the Indian Council of Agricultural Research (ICAR), NAARM plays a pivotal role in strengthening the National Agricultural Research, Education and Extension System (NAREES) through capacity development, education, research, policy support and innovation promotion.

During the year, the Academy continued to focus on building leadership, managerial competencies and technological capabilities among professionals working in the agricultural sector. The Academy organized two FoCARS (114th & 115th), the flagship programs training 212 ARS probationers. A wide range of capacity building programs (48 nos.), workshops and training initiatives were conducted for 2,971 scientists, academicians, administrators, extension personnel and other stakeholders from across the country. These programs addressed contemporary themes such as data analytics, geospatial technologies, artificial intelligence in agriculture, econometrics, research impact assessment, technology forecasting, science communication, digital extension and mobile application development. Special CBPs included 6 Executive Development Programs (EDPs) and Management Development Programs (MDPs) together contributed to targeted managerial capacity building of 86 senior-level Scientists. Through these initiatives, the Academy contributed to enhancing the knowledge and skills of agricultural professionals and strengthening institutional performance within the NAREES framework.

A significant feature of the year was the continued expansion of digital and online learning initiatives. The Academy successfully conducted several online training and certification programs, which attracted strong participation from researchers, students and professionals across India. One of the online courses recorded 3,603 registrations, of which 559 participants successfully completed the certification requirements. Additional online programs received 366 registrations with 178 successful completions, and 175 registrations with 155 completions, reflecting the increasing demand for flexible and technology-enabled learning platforms. These initiatives demonstrate the Academy's efforts to leverage digital technologies for large-scale knowledge dissemination and capacity development.

Promoting innovation and agripreneurship remained a key priority of the Academy. Through its technology business incubator a-IDEA (Association for Innovation Development of Entrepreneurship in Agriculture), NAARM continued to support startup incubation, mentoring and investment facilitation for agri-based enterprises. The Academy organized important startup ecosystem events including the Demo Day of Agri UDAAN, which brought together over 100 participants including investors, scientists, industry experts and startup founders. The launch of Agri UDAAN 8.0 further strengthened the innovation ecosystem by attracting more than 150 stakeholders from government, academia, industry and the startup community. These initiatives contribute to nurturing innovative solutions for agriculture and promoting entrepreneurship among youth. The Academy also continued to promote entrepreneurship education among students through dedicated training programs aimed at developing startup and innovation competencies.

During the year, over 90 students participated in structured entrepreneurship development programs, gaining exposure to business planning, innovation management, market analysis and startup ecosystem dynamics. The agri-innovation ecosystem of the Academy facilitated extensive startup support, with multiple cohorts incubated through flagship programs like KRISHIBOOT and ABI, and 17 startups accelerated under AGRI UDAAN® 7.0. Financial enablement remained strong, with startups receiving seed funds, grants and investments across schemes such as BIRAC BIG, NIDHI-PRAYAS, SISF, and SAMRIDH (supporting at least 8 startups with matching funds). Overall, the initiatives reflect a robust pipeline spanning ideation to incubation, acceleration and investment readiness strengthening agri-startup growth and scalability.

Another important focus area during the year was farmer-centric capacity development and outreach. The Academy organized 35 farmer outreach programs covering diverse themes such as integrated farming systems, millet processing and value addition, backyard poultry farming, mushroom cultivation, terrace gardening and natural farming practices. These programs were conducted in different locations and collectively benefited 1,502 farmers, rural youth and women, enabling them to adopt improved agricultural practices and diversify livelihood opportunities.

The Academy also hosted several national workshops, consultations and orientation programs addressing emerging issues in agricultural governance, institutional development and public sector capacity building. Among these initiatives, the Orientation Workshop on Mission Karmayogi attracted participation of more than 350 officials in hybrid mode, demonstrating the Academy's growing role in supporting national initiatives related to capacity development and public administration reforms.

In addition to training and outreach programs, the Academy continued to strengthen its academic and research activities. The Post Graduate Diploma in Management (Agri-Business Management) program remained one of the flagship academic offerings of the Institution, producing highly skilled professionals capable of contributing to agribusiness development and agricultural value chains. The Academy also undertook research projects, policy studies and collaborative initiatives with national and international partners aimed at improving research management, innovation systems and institutional governance in the agricultural sector. The Academy produced an extensive body of work comprising more than 100 research papers across domains such as AI in agriculture, climate resilience and sustainable food systems. In addition, the Academy produced 3 policy papers, more than 20 books, and over 20 training manuals/technical bulletins, highlighting strong contributions to capacity building and knowledge dissemination.

The achievements highlighted in this report reflect the collective efforts of the faculty, scientists, staff, students and collaborating institutions associated with the Academy. Through its integrated approach encompassing training, research, innovation and policy engagement, NAARM continues to play a critical role in strengthening agricultural research management and capacity development in India.

Moving forward, the Academy will continue to focus on developing future-ready human resources, promoting innovation-driven agriculture, strengthening institutional capacities and fostering collaborative partnerships across the agricultural research, education and extension ecosystem. These efforts will contribute significantly to achieving sustainable agricultural growth, technological advancement and improved livelihoods for farmers.

1

OVERVIEW OF THE ACADEMY

ICAR-National Academy of Agricultural Research Management (NAARM) was established by the Indian Council of Agricultural Research in 1976 at Hyderabad. The major mandate of the Academy is to build capacity and provide advocacy for National Agricultural Research, Education and Extension System (NAREES). Therefore, the Academy organizes various capacity-building programs and policy research activities for researchers, academicians, extension personnel, scholars and other stakeholders in NAREES. The vision, mission and mandates of the Academy are as follows:

ICAR-NAARM operates through six specialized divisions namely (i) Agribusiness Management (ABM) Division, (ii) Education Systems Management (ESM) Division, (iii) Human Resource Management (HRM) Division, (iv) Extension Systems Management (XSM) Division, (v) Information and Communication Management (ICM) Division and (vi) Research Systems Management (RSM) Division. These

divisions collectively strengthen agricultural research, education and extension ecosystem of NAREES. ABM Division conducts research and capacity building programs (CBPs) on market reforms, agricultural enterprise development, and agripreneurship, supporting stakeholders from smallholder farmers to agri-startups. The Division also supports Post Graduate Diploma in Management (Agri Business Management) in a greater way. ESM Division conducts research and CBPs on advancing agricultural higher education through improvement in teaching-learning continuum, digital transformation including application of artificial intelligence in teaching and national education policy implementation. HRM Division operates research projects and CBPs focused on leadership and human resource development for education and research management positions including women leadership. XSM Division implements research projects and CBPs aimed at strengthening agricultural extension services and bridging the researcher-farmer gap. ICM Division runs

Vision

A global knowledge institution enabling National Agricultural Research, Education and Extension System (NAREES) adapt to change through continuous innovation

Mission

To enhance leadership, governance and innovation capacities of NAREES through capacity strengthening, education, research, consultancy and policy support

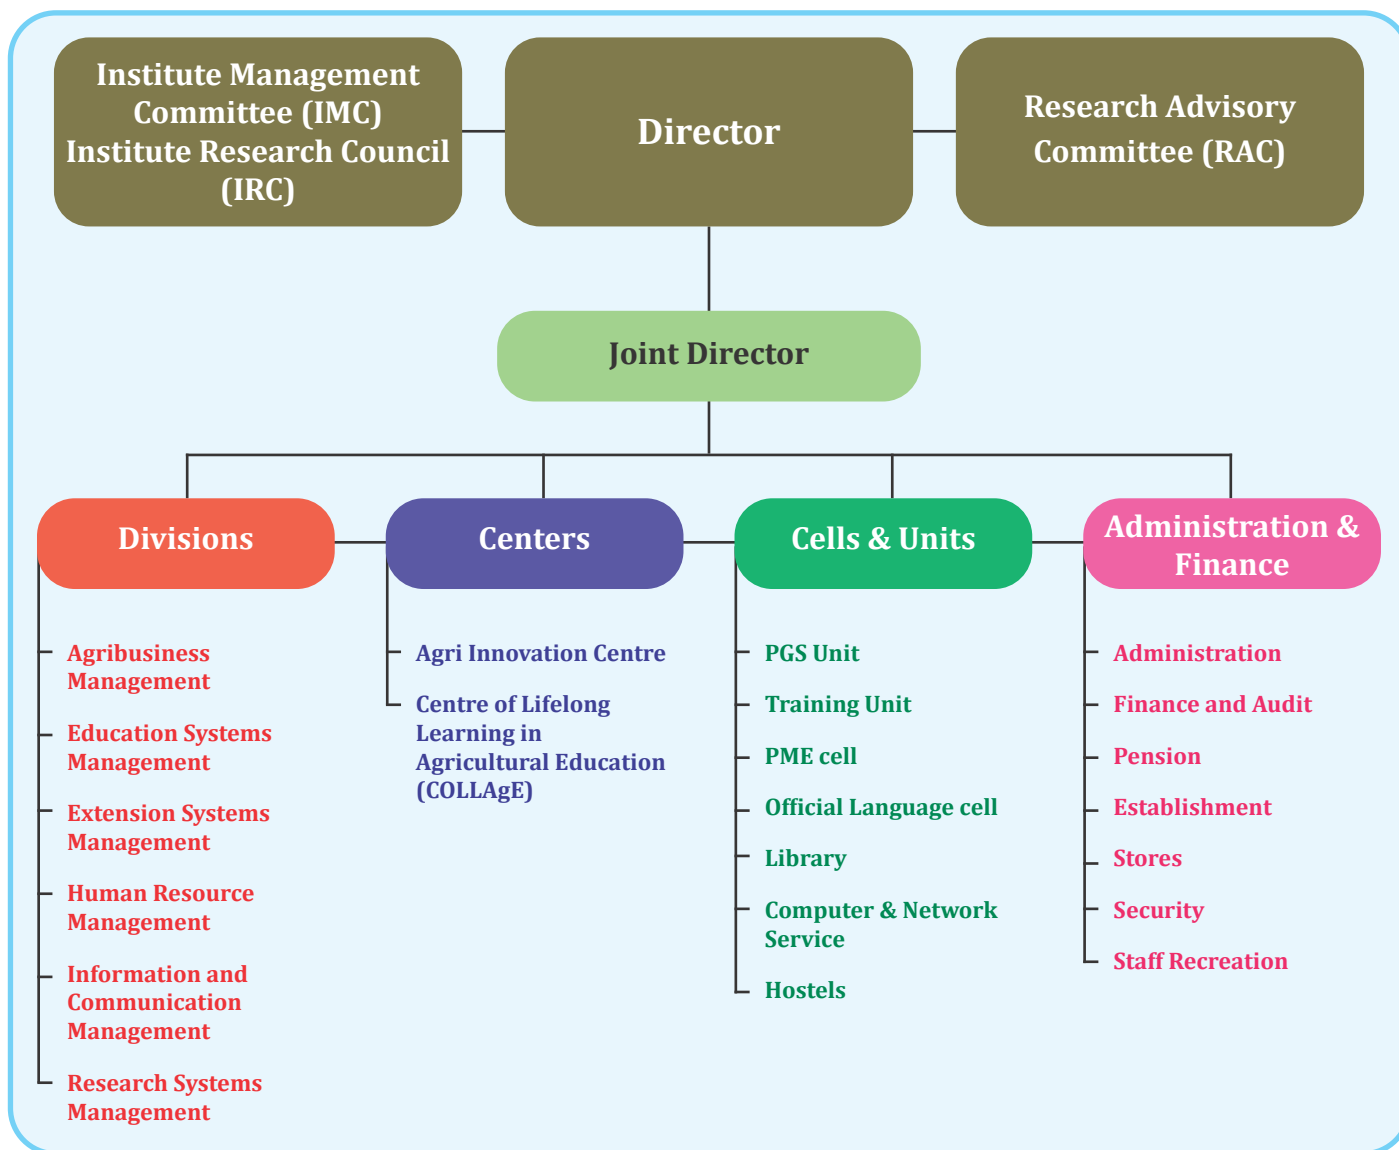

Mandates

- (i) To enhance individual and institutional competencies in managing innovation through capacity development, research and policy advocacy and
- (ii) to serve as a think tank for the NAREES and facilitate strategic management of human capital

research projects and CBPs leveraging advanced technologies and data analytics for agricultural research and development. RSM Division executes research projects and CBPs focusing on strategic research planning, technology management and innovation systems in agriculture. Through these

integrated activities, NAARM demonstrates a comprehensive approach to agricultural capacity building, combining research, education, extension, and technology management to advance India's agricultural sector.

Organizational chart

2

CAPACITY BUILDING PROGRAMS

The Academy organized 48 Capacity Building Programs (CBPs) during 2025, benefiting a total of 2,971 participants, reflecting wide outreach and thematic diversity across agricultural research, education and management systems. One Executive Development Program (EDP) was organized for 14 senior-level leaders focusing on leadership excellence, strategic management, team building and well-being. Five Management Development Programs (MDPs) with 72 participants were organized mainly on leadership development, intellectual property valuation, technology management, project monitoring and evaluation, and sector-specific leadership strengthening. These programs enhanced managerial, administrative and innovation competencies among scientists and institutional leaders. In addition, the Academy conducted two

flagship programs namely Foundation Courses for Agricultural Research Service (FoCARS) with 212 scientist probationers, one Foundation Course for AOs & FAOs (15 officers), and 30 need-based and sponsored programs (880 participants). Six workshops/seminars engaged 886 participants, while three MOOCs reached 892 learners, demonstrating strong digital engagement. The programs represented participants from multiple ICAR institutes, SAUs, KVKs, government departments and private organizations across numerous states and disciplines. Overall, the capacity building initiatives of the Academy showcased significant diversity in themes – ranging from AI, bioinformatics and geospatial technologies to extension, education, research, accreditation, policy analysis and leadership.

Table 2.1. Capacity building programs organized by the Academy during 2025

Sl. No.	Type of program	No. of programs	No. of participants
I.	Executive Development Programs (EDPs)	1	14
II.	Management Development Programs (MDPs)	5	72
III.	Foundation Course for Agricultural Research Service (FoCARS)	2	212
IV.	Foundation Course for AOs and FAOs	1	15
V.	Need-based and Sponsored Programs	30	880
VI.	Training Workshops/ Seminars/ Webinars/ Conferences	6	886
VII.	Massive Open Online Courses (MOOCs)	3	892
Total		48	2,971

I. EXECUTIVE DEVELOPMENT PROGRAMS (EDPs)

18th Executive Development Program (EDP) on Leadership Excellence

The 18th EDP on Leadership Excellence was organized during Sept. 8-13, 2025 at the Academy, and was attended by 14 leaders

in NAREES. The program aimed at refining leadership capabilities, strategic management skills and help the participants with the holistic approach of leadership excellence. The program equipped participants with knowledge on different leadership styles, attributes and skills, conflict management and change management strategies, along with empirical exercise on strength-finder

and outbound exercise on team building and also strategies for enhancing happiness and well-being. It also included specialized modules on administrative and financial management, CSR funding opportunities, besides daily yoga. **[Program Directors: Dr. B. Ganesh Kumar and Dr. Gopal Lal]**

Fig. 2.1. 18th Executive Development Program on Leadership Excellence (Sept. 8-13, 2025)

II. MANAGEMENT DEVELOPMENT PROGRAMS (MDPs)

34th Management Development Program (MDP) on Leadership Development

The 34th MDP on Leadership Development – a pre-RMP Program, was organised during Jun. 16-27, 2025, which was attended by 15 HoDs and senior Principal Scientists from various ICAR institutions and one Dean from SAU. The program aimed at enabling the participants to become an effective and efficient research manager and tackle leadership challenges. It also educated them with important skills such as research project management, financial management

Fig. 2.2. 34th MDP on Leadership Development (Jun. 16-27, 2025)

and emerging technologies. From the feedback, it could be stated that the MDP on leadership development helped many of the participants to switch from individual academicians/ researchers to research managers improving their abilities to handle different functional roles effectively. **[Program Directors: Dr. B. Ganesh Kumar and Dr. K. Srinivas]**

35th Management Development Program (MDP) on Leadership Development

The 35th MPD on Leadership Development (a pre-RMP Program) was organized during Dec. 11-22, 2025, in which a total of 14 participants from various ICAR Institutes representing 9 states of India participated. The program had touched various contemporary aspects of leadership development, strategies, challenges, lessons from epics and ICAR, IPRs in agriculture, ICAR data policy and administrative issues like financial and audit management, procurement of goods and preventive vigilance were also covered. It also included health & well-being and yoga sessions. Recent technologies like artificial intelligence, intelligence driven agriculture, cloud in agriculture were also added in the program. **[Program Directors: Dr. K. Srinivas and Dr. Sona Yengkokpam]**

Fig. 2.3. 35th MDP on Leadership Development (Dec. 11-22, 2025)

MDP on Intellectual Property Valuation and Technology Management

A 5-day MDP on 'Intellectual Property Valuation and Technology Management' was organised during Mar. 3-7, 2025, which was attended by 14 participants including 2 females. The training

program covered basic aspects of IP and IPR, IP valuation and technology management viz., entrepreneurship and grass root innovations, technology management strategies, risk assessment and business planning. It also highlighted the current practices of innovation management in the ICAR system. The training dealt with copyright issues in academic research, IP informatics and Geographical indications. **[Program Directors: Dr. Umesh Hudedamani and Dr. S. Sivakumar]**

Fig. 2.4. MDP on Intellectual Property Valuation and Technology Management (Mar. 3-7, 2025)

MDP on Intellectual Property Valuation and Technology Management

Another 5-day MDP on 'Intellectual Property Valuation and Technology Management' was organised during Nov. 24-28, 2025, which was attended by 15 participants including seven females. The training program covered basic aspects IP and IPR, IP valuation and technology management viz., entrepreneurship and grass root innovations, technology management strategies, risk assessment and business planning. It also

Fig. 2.5. MDP on Intellectual Property Valuation and Technology Management (Nov. 24-28, 2025)

highlighted the current practices of innovation management in the ICAR system. The training dealt with copyright issues in academic research, IP informatics and Geographical indications. **[Program Directors: Dr. Umesh Hudedamani and Dr. S. Sivakumar]**

MDP on Leadership Development for Heads of Social Sciences

An MDP on 'Leadership Development for Heads of Social Science' was organized by the Academy during Dec. 8-12, 2025 and attended by 14 participants. The program aimed to strengthen leadership competencies in research, education and extension systems management, while facilitating sharing of innovative governance and management strategies relevant to frontline extension. Through expert inputs and interactive sessions, the MDP provided a platform for capacity building, peer learning and strategic reflection among senior professionals. **[Program Directors: Dr. P. Venkatesan and Dr. Surya Rathore]**

Fig. 2.6. MDP on Leadership Development for Heads of Social Science (Dec. 8-12, 2025)

III. FOUNDATION COURSE FOR AGRICULTURAL RESEARCH SERVICE (FOCARS)

114th Foundation Course for Agricultural Research Service (FoCARS)

The 114th Foundation Course for Agricultural Research Service (FoCARS) was organized by the Academy during Jul. 7 to Oct. 16, 2025. A total of 105 ARS Scientist probationers representing 41 disciplines from 21 states attended the Course for a total duration of 102 days. The training

comprised 3 phases – First phase consisted of Orientation and capacity building (total 32 days); Second phase consisted of Field Experiential Training (total 38 days) and Third phase covered Multidisciplinary perspectives (total 32 days). The objectives of the FoCARS were to (i) apprise the scientist trainees about challenges in agricultural sector, and acquaint them about socioeconomic milieu of rural society, agricultural research, education and development systems in the country; (ii) sensitize about the global agricultural scenario and its implications to Indian Agriculture viz., trade, climate change, protection of agrobiodiversity and intellectual property rights; (iii) stimulate critical thinking, teamwork and inter-disciplinary approach to enhance their active participation in agricultural research; (iv) expose them to the modern concepts of Agricultural Research Project Management, Data and Information

Management, and Research Methodologies for promoting professional and innovation competence and (v) provide knowledge and skills for enhancing personality & inter-personal relationships, written & oral communication, presentation skills, motivation & organizational behaviour. The course was inaugurated by Dr. Himanshu Pathak, DG, ICRISAT and Dr. H.P. Singh, Former DDG (Horticultural Sciences) in presence of galaxy of ICAR Scientists. Dr. M.L. Jat, Secretary, DARE and DG, ICAR, interacted with the FoCARS participants and motivated them to align with global research trends, set measurable goals and adopt system design and demand-driven research approaches. Dr. J.K. Jena, DDG (Fisheries Science & Agricultural Education) and Dr. Gopal Lal, Director, NAARM also interacted with the Scientists and motivated them. **[Course Directors:** Dr. R. Venkattakumar and Dr. Umesh Hudedamani]

Fig. 2.7. 114th Foundation Course for Agricultural Research Service (FoCARS) (Jul. 7 to Oct. 16, 2025)

115th Foundation Course for Agricultural Research Service (FoCARS)

The 115th Foundation Course for Agricultural Research Service (FoCARS) was organized by the Academy during Aug. 11 to Nov. 25, 2025, the ultimate objective of which was to prepare competent, empathetic and future-ready ARS scientists for NAREES. The Course was undertaken by 107 Scientist probationers representing 35 disciplines and 22 states. The Course featured 94 technical sessions, 17 practical sessions,

5 Saturday special sessions, 01 workshop, 05 educational visits and industrial visit, reflecting both depth and diversity in content and exposure. It was inaugurated by Dr. Chhabilendra Roul, Member, CAT; Former Secretary, DoF, MoCF & Former Special Secretary, DARE & Secretary, ICAR, New Delhi along with Dr. Joykrushna Jena, DDG (Fisheries Science & Agri. Edn.), ICAR, New Delhi and Shri Arun Tiwari, Author and Director, CARE Foundation, Hyderabad. The Phase I (Orientation and capacity building)

during Aug. 11 to Sept. 12, 2025 focused on orienting newly recruited scientists to the institutional framework, administrative structure and functional mechanisms of ICAR. The Phase II (Field experience training) during Sept. 16 to Oct. 17, 2025 provided immersive field exposure across KVKs in different states of India. The phase enhanced participants' empathy, systems thinking and appreciation of ground-level challenges, strengthening the linkage between research priorities and real-world agricultural needs. The Phase III (Multidisciplinary perspectives)

held during Oct. 21 to Nov. 25, 2025 focused on integrating multidisciplinary knowledge and advanced research skills. In addition, educational and industrial exposure was conducted for the scientists, which provided insights into value chains, market dynamics, industrial processes and research-industry linkages across sectors such as livestock, aquaculture, horticulture, spices, textiles and commercial agriculture. **[Course Directors:** Dr. D. Damodar Reddy and Dr. M. Ramesh Naik]

Fig. 2.8. 115th Foundation Course for Agricultural Research Service (FoCARS) (Aug. 11 to Nov. 25, 2025)

IV. FOUNDATION COURSE FOR AOs AND FAOs

Foundation Training Program for Newly Recruited AOs & FAOs

A one-month duration foundation training program for newly recruited AOs & FAOs was organized at the Academy during Mar. 17 to

Fig. 2.9. Foundation Training Program for Newly Recruited AOs & FAOs (Mar. 17 to Apr. 16, 2025)

Apr. 16, 2025. Fifteen (15) officers attended the program. The Course was designed to address areas concerning finance and administrative matters, which are required on day-to-day basis. Some topics on HR were also covered for equipping the trainees with the knowledge and skills to navigate the workplace effectively and to contribute to the overall success of the organization. **[Course Directors:** Shri Vivek Purwar and Shri T.D.S. Prakash]

V. NEED-BASED AND SPONSORED PROGRAMS

Training Program on Design Thinking for Agripreneurship Development

A 5-day training program on 'Design thinking for agripreneurship development' was organized

during Jan. 20-24, 2025 to promote innovation and entrepreneurship in the agricultural sector. The program aimed to sensitize participants to emerging business opportunities in agriculture, train them in business plan development, and equip them with essential startup management skills. Program comprised key concepts of design thinking, sources of finance, business intelligence through data visualization, market research and exposure to real startup experiences. A total of 15 participants took part in the training, who actively engaged in interactive discussions and hands-on exercises aligned with the design thinking process. **[Program Director: Dr. Sanjiv Kumar]**

Fig. 2.10. Training Program on Design Thinking for Agripreneurship Development (Jan. 20-24, 2025)

Training Program on Course Production and Management for MOOCs

A training program on 'Course Production and Management for MOOCs' (online mode) was offered to improve the competency on digital content production and management in line with New Education Policy-2020 during Jan. 20-24, 2025, in which a total of 37 participants (18 men and 19 women) attended. There were 18 sessions (75 minutes duration each) spread over five days covering topics such as concepts on digital content development, course management through open-source Learning Management System (MOODLE), introduction to AI tools for educators which were imparted to the participants in a participatory and hands-on mode. Participants have practiced online course

management through the Academy's e-learning live portal **[Program Director: Dr. G.R.K. Murthy]**

Fig. 2.11. Training Program on Course Production and Management for MOOCs (Jan. 20-24, 2025)

Training Program on Teaching Competency Enhancement for Faculty of Agricultural Universities

A training program on 'Teaching Competency Enhancement for Faculty of Agricultural Universities' was organized to enhance teaching competencies of the agri-faculty in tune with the core philosophy of National Education Policy-2020 during Jan. 20-24, 2025. A total of 44 participants from public and private universities attended the program, which focused on basics of teaching-learning, innovative teaching methodologies, NEP 2020, micro-teaching, teaching with technology, creativity and emotional intelligence for teaching effectiveness. In addition, sessions on AI, ML, AR, VR and Mixed Reality were also held. **[Program Director: Dr. D. Thammi Raju]**

Fig. 2.12. Training Program on Teaching Competency Enhancement for Faculty of Agricultural Universities (Jan. 20-24, 2025)

Training Program on Data Visualization using R

A 5-day training program on 'Data Visualization using R' organized during Jan. 20-24, 2025 was attended by 26 learners (with 16 men and 10 women). The course content of the program included theory as well as hands-on sessions on basics of R, data wrangling, visualization of different types of data viz., numeric, spatial and text data and statistical analyses. The trainees were exposed to various packages available in R for carrying out different statistical analyses as well as visualization. [Program Director: Dr. B.S. Yashavanth]

Fig. 2.13. Training Program on Data Visualization using R (Jan. 20-24, 2025)

Training Program on Technology Forecasting and Foresight Methods in Agricultural and Allied Sectors

This 5-day training program was organized by the Academy during Feb. 3-7, 2025, which was attended by 21 learners including 3 women participants. The main objective of the program was to equip participants with essential skills to anticipate technological trends, address uncertainties and develop forward-looking strategies for sustainable agricultural development. The program featured expert-led sessions covering key foresight tools such as Cross Impact Analysis, Multi-Dimensional Scaling, System Dynamics and Trend Impact Analysis, Generative AI for Research, Technology Scouting and Prioritization Tools like AHP (Analytic

Hierarchy Process). Scientometric analysis to explore data-driven research evaluation to map scientific progress and innovation trends was also taught. [Program Directors: Dr. Ramasubramanian V. and Dr. Sivakumar S.]

Fig. 2.14. Training Program on Technology Forecasting and Foresight Methods in Agricultural and Allied Sectors (Feb. 3-7, 2025)

ICAR Short Course on 'Advances in Extension Research and Evaluation Studies'

A 10-day ICAR-sponsored Short Course on 'Advances in Extension Research and Evaluation Studies' was organized by the Academy during Jan. 29 to Feb. 7, 2025. The course was attended by 25 Scientists/ Faculty. The core objective of the course was to disseminate latest knowledge, skills and innovative practices needed for conducting impact-oriented, quality extension research and

Fig. 2.15. ICAR Short Course on 'Advances in Extension Research and Evaluation' (Jan. 29 to Feb. 7, 2025)

evaluation in social sciences in general and inter-institutional extension research. It provided an orientation on advanced methodologies used in social science research, ensuring the participants to be equipped with contemporary approaches and analytical techniques. **[Course Director:** Dr. P. Venkatesan; **Course Coordinators:** Dr. R. Venkattakumar and Dr. N. Sivaramane]

Training Program for Newly Joined Assistants of ICAR (Module – II)

A 5-day training program for newly recruited Assistants of ICAR was organized at the Academy during Feb. 5-11, 2025, in which a total of 31 staff participated. The objective of the program was to equip them with necessary knowledge and skills for carrying out official work. The program covered topics on Service Matters – Scientific services/ Technical services/Administrative Services/ Pay fixation rules, Pension and retirement benefits, GFR, Reservation in Service, CCS (Conduct) Rules, LTC/TA, GPF, Noting, drafting and different methods of communication including preparation of cabinet notes, prevention & redressal of sexual harassment of women at work place, overview of Govt structure with focus on structure and functioning in ICAR along with roles and responsibilities of Assistants in ICAR, service matters of administrative cadre, procurement of goods, hands on training on GeM and RTI. **[Program Coordinators:** Shri Vivek Purwar and Shri B.K. Sinha]

Fig. 2.16. Training Program for Newly Joined Assistants of ICAR (Module – II) (Feb. 5-11, 2025)

Training Program on Recent Trends in Bioinformatics and Its Applications in Agriculture

A 10-day training program on ‘Recent Trends in Bioinformatics and its Applications in Agriculture’ (online mode) was organized by the Academy during Feb. 4-13, 2025. A total of 45 participants attended the event, comprising 20 men and 25 women representing 11 different disciplines in agriculture and allied sciences. The program provided the participants with an insight into the enormous potential and application of advanced bioinformatics tools in the domain of agriculture. Participants learnt about various software and tools on different aspects related to emerging requirements of bioinformatics in agriculture and allied sciences. It highlighted frontier areas of research such as transcriptomics, proteomics, genomics, genome editing and CRISPR-CAS. **[Program Director:** Dr. M. Balakrishnan]

Fig. 2.17. Training Program on Recent Trends in Bioinformatics and Its Applications in Agriculture (Feb. 4-13, 2025)

Training Program on Geo-spatial Technologies for Agriculture

A 5-day training program on ‘Geo-spatial Technologies for Agriculture’ was organized during Feb. 17-21, 2025. The program was aimed at orienting researchers and students to understand and apply geospatial technologies and developing a decision support framework for managing agricultural production system for sustainability using open-source data and software. During the training, the participants

(12 nos.) were exposed to various advanced geo-spatial analytical techniques and hands-on training for the analysis of spatial data, its classification, map preparation for precision agriculture, crop health monitoring and image processing using drones, area estimation using SAR data, suitability analysis and catchment delineation using open source software like QGIS, SNAP and R. **[Program Director: Dr. P.D. Sreekanth]**

Fig. 2.18 Training Program on Geo-spatial Technologies for Agriculture (Feb. 17-21, 2025)

MDP on 'Priority Setting, Monitoring and Evaluation of Agricultural Research Projects'

The Academy organized an MDP on 'Priority Setting, Monitoring and Evaluation of Agricultural Research Projects' for those associated with PME Cell of ICAR institutes and SAUs during Feb. 17-22, 2025. A total 15 participants including one from SAU (UHS, Bagalkot) attended the program representing 12 ICAR Institutes. The objective of the program was to enhance competencies of the In-charges/ Members of PME Cells and to aid them in ensuring that research activities are

Fig. 2.19. MDP on 'Priority Setting, Monitoring and Evaluation of Agricultural Research Projects' (Feb. 17-22, 2025)

carried out in accordance with a plan and are evaluated in the pursuance of the objectives of the organization. **[Program Director: Dr. Tavva Srinivas]**

ICAR Short Course on Strategic Science Communication for Extension Professionals

An ICAR-sponsored Short Course on 'Strategic Science Communication for Extension Professionals' was organized during Feb. 19-28, 2025 at the Academy. It was attended by 25 participants. The course was organized with the objective of strengthening the science communication skills of extension professionals of NAREES. The course was designed to include an overview of communicating science through mainstream media, writing research papers and popular articles, winning extramural projects, publishing papers in high impact journals, effective use of non-verbal communication, delivering effective presentation, presenting research results, editorial expectations, impact assessment, scientometric studies for research publications and MOOCs. **[Course Director: Dr. R. Venkattakumar; Course Coordinators: Dr. P. Venkatesan and Dr. Surya Rathore]**

Fig. 2.20. ICAR Short Course on Strategic Science Communication for Extension Professionals (Feb. 19-28, 2025)

Training Program on Advances in Mobile Application Development

A 5-day training program on 'Advances in mobile application development' was organized by the Academy during Mar. 17-21, 2025 in virtual

mode. The objective of the program was to raise awareness and build essential skills in mobile app development. During the training, the participants were exposed to theoretical and practical aspects of Android platform, Java programming, Android Studio installation, development of Android applications, database connectivity with android apps and insight into no-coding technologies for android app development. The program was attended by 31 participants. [Program Director: Dr. N. Srinivasa Rao]

Fig. 2.21. Training Program on Advances in Mobile Application Development (Mar. 17-21, 2025)

Collaborative Training Program on 'Foundations CGE Modelling for Economic Policy Analysis'

A 5-day training program on 'Foundations of Computable General Equilibrium (CGE) Modelling for Economic Policy Analysis' was jointly organized by ICAR-NAARM and the International Food Policy Research Institute (IFPRI), New Delhi during Jun. 23-27, 2025. The program brought together 23 participants, including 8 women, representing diverse social science disciplines, work experiences and institutions. The key topics of the program included Social Accounting Matrix (SAM), SAM multiplier analysis, CGE models, and the IFPRI Standard CGE model followed by practical exercises. [Program Directors: Dr. Anjani Kumar (IFPRI, Delhi) and Dr. Ranjit Kumar (ICAR-NAARM)]

Fig. 2.22. Collaborative Training Program on 'Foundations CGE Modelling for Economic Policy Analysis' (Jun. 23-27, 2025)

Training Program on Developing Competency in Econometrics

The Academy organized a 5-day training program on 'Developing Competency in Econometrics' during Jun. 23-27, 2025. Sixteen participants representing nine states got benefitted from the program. The aim of the program was to strengthen the basics and applied econometrics for researchers, academicians and students and expose them to wide range of techniques like ridge regression, Just-Pope model and impact assessment techniques. The participants were also exposed to open-source software, viz., R and GRETL. [Program Director: Dr. S.M. Feroze]

Fig. 2.23. Training Program on Developing Competency in Econometrics (Jun. 23-27, 2025)

Training Program on Analysis of Experimental Data using R

A 5-day online training program on 'Analysis of Experimental Data using R' was organized during Jul. 21-25, 2025, in which a total of 53 participants (29 men and 24 women) attended. The course content of the program included theoretical and practical aspects, including

introduction to R and R-Studio, fundamental principles of experimentation, data visualization techniques, basic and multi-factor experimental designs, approaches for managing and analyzing problematic data, as well as correlation, regression, cluster and principal component analysis. It also emphasized effective communication of research findings. **[Program Directors: Dr. A. Dhandapani and Dr. B.S. Yashavanth]**

Fig. 2.24. Training Program on Analysis of Experimental Data using R (Jul. 21-25, 2025)

Training Program on 'Impact Assessment of Agricultural Technologies'

A 5-day training program on 'Impact assessment of agricultural technologies' was organized during Aug. 4-8, 2025 with an aim to strengthen the participants' understanding of impact assessment concepts, equip them with suitable analytical tools and methods for impact assessment such as economic surplus model, research spill over

Fig. 2.25. Training Program on 'Impact Assessment of Agricultural Technologies' (Aug. 4-8, 2025)

model, difference-in-difference method, PSM, regression discontinuity method and synthetic control method. Participants were also exposed to the open-source software viz., R and GRET. A total of 29 participants, including 4 women from various ICAR Institutes, SAUs and KVKs representing 17 states of the country attended the program. **[Program Directors: Dr. B. Nirmala and Dr. S.M. Feroze]**

Training Program on 'Advances in Mobile Application Development'

A 5-day training program on 'Advances in mobile application development' (online mode) was organized during Aug. 18-22, 2025 with an aim to raise awareness and develop essential skills in mobile application development. A total of 36 enthusiasts attended the program. Theoretical and hands-on sessions on Android and iOS platforms, Java programming, Object-Oriented Programming (OOP) concepts, and database fundamentals were some of the important topics covered. Participants also got to learn about multiple platforms such as Android, Flutter and Glide, and worked with Firebase and MySQL for database connectivity, learnt how real-time data storage supports mobile applications. Additionally, participants were introduced to AI tools that can enhance and accelerate the app development process. **[Program Directors: Dr. N. Srinivasa Rao and Dr. P.D. Sreekanth]**

Fig. 2.26. Training Program on Advances in Mobile Application Development (Aug. 18-22, 2025)

Training Program on Enhancing Functional Competencies of NFDB officials for Project and Financial Management

A 5-day training program on Enhancing Functional Competencies of Executive Assistants of NFDB for Project and Financial Management was organized during Sept. 15-19, 2025 at the Academy and was attended by 9 participants. The main objectives were to (i) enhance the knowledge and skills in project and financial management, (ii) familiarize participants with fisheries sector challenges, government rules and digital tools and (iii) strengthen competencies in communication, time management and organizational efficiency. The program featured expert sessions on inland and marine fisheries, emerging R&D issues, and project formulation and evaluation. Participants gained insights into Government Financial Rules, PFMS, procurement guidelines, and GeM portal. Sessions on ICT tools, AI applications, scaling techniques, and file noting enhanced digital and managerial efficiency. Soft skill sessions on communication, design thinking on project formulation, interpersonal relations and stress management ensured holistic capacity building. **[Program Directors: Dr. Dipesh Debnath and Dr. Sona Yengkokpam]**

Fig. 2.27. TP on Enhancing Functional Competencies of NFDB officials for Project and Financial Mgt. (Sept. 15-19, 2025)

Training Program on 'Impactful AI Tools in Agriculture'

A 5-day training program on 'Impactful AI Tools in Agriculture' (online mode) was organized during Sept. 15-19, 2025, in which 99 participants (75

men and 24 women) attended. All the resources required for the program were shared in online mode which included ecosystem of digital resources required for hands-on sessions as well. The program was designed to cover concepts of ICTs, Artificial Intelligence, Machine Learning, Deep Learning & IoT, Python programming, AI Tools suitable to agriculture domain like ChatGPT, Claude, Google Gemini, Gamma app, Runwayml, Elevenlabs etc. **[Program Director: Dr. V.V. Sumanth Kumar]**

Fig. 2.28. Training Program on 'Impactful AI Tools in Agriculture' (Sept. 15-19, 2025)

Training Program on Regulatory Guidelines for Establishment of Agro and Food Processing Industries

A 5-day training program on 'Regulatory Guidelines for Establishment of Agro and Food Processing Industries' was organized during Oct. 27-31, 2025. The objectives of the program were to disseminate information about regulatory guidelines required for establishment of agro and food processing industries and to familiarize the participants with methodological approaches for implementation of the same. The program equipped the participants (24 nos.) with necessary knowledge and skills related to the theme. **[Program Directors: Dr. Sivakumar S. and Dr. Ramasubramanian V.]**

Fig. 2.29. TP on Regulatory Guidelines for Establishment of Agro and Food Processing Industries (Oct. 27-31, 2025)

Training Program on 'NIRF Ranking for Academic Excellence'

A 3-day training program on 'NIRF Ranking for Academic Excellence' was organized during Nov. 10-12, 2025, which was attended by 32 participants representing 17 SAUs, 2 DUs and 2 CAUs, who belonged to 17 states and 2 UTs. The main objectives of the program were to develop an understanding of ranking frameworks, particularly the NIRF and enable strategic planning for the same and to facilitate enhanced institutional rankings for HEIs over time. The participants were exposed to aspects of NIRF ranking such as categories and parameters, strategic planning for higher scores, data collection, management, data capturing system, case studies of Punjab Agricultural University and Tamil Nadu Agricultural University along with activities and panel discussion on issues and action plan for enhanced rankings of Universities.

Fig. 2.30. TP on 'NIRF Ranking for Academic Excellence' (Nov. 10-12, 2025)

[Program Directors: Dr. K.N. Yamini and Dr. Navneet Kumar]

Training Program on 'From Reads to Revelations: Transcriptome Data Decoded'

A training program on 'From Reads to Revelations: Transcriptome Data Decoded' was organized during Nov. 10-14, 2025. The program provided participants (15 nos.) with a thorough and in-depth understanding of transcriptomics, from the initial raw RNA sequencing data to the extraction of valuable biological insights. The training focused on hands-on, real-world applications, enabling attendees to gain proficiency in using a wide range of bioinformatics tools such as FastQC, Trimmomatic, Bowtie2 and HISAT2. Additionally, participants learned to apply advanced statistical methods and tools like R studio, DESeq2 and edgeR for data visualization and statistical analysis for interpreting complex datasets and drawing conclusions that could drive biological discoveries and research advancements. **[Program Directors:** Dr. P. Supriya and Dr. M. Balakrishnan]

Fig. 2.31. TP on 'From Reads to Revelations: Transcriptome Data Decoded' (Nov. 10-14, 2025)

Training program on NAAC and ICAR Accreditations of Agricultural HEIs

A training program on 'NAAC AND ICAR Accreditations of Agricultural Higher Educational Institutions' was organized for faculty/ Officers/ functionaries of State Agricultural Universities (SAUs)/ Deemed Universities (DUs)/ Central

Agricultural Universities (CAUs) during Nov. 13-15, 2025. A total of 31 participants attended the program, who were trained on the key aspects involved in accreditation towards enhancing the academic standings of agricultural HEIs in the country. The participants were exposed to NAAC accreditation frameworks, parameters and criteria, preparation of self-study report (SSR), data management and ICT tools, quantitative and qualitative metrics for NAAC, quality assurance and benchmarking, role of IQAC, outcome-based education, ICAR accreditation frameworks, SSR and peer review process and comparison of ICAR vis-à-vis NAAC accreditation. **[Program Directors: Dr. Navneet Kumar and Dr. K.N. Yamini]**

Fig. 2.32. TP on NAAC and ICAR Accreditations of Agricultural HEIs (Nov. 13-15, 2025)

Training of Master Trainers on Vigilance Perspectives

A 3-day 'Training of Master Trainers on Vigilance Perspectives' for ICAR Vigilance Officers and Officials was organized during Nov. 17-19, 2025, in which 26 participants representing 14 states across India attended. The sessions covered key themes of vigilance awareness including preventive vigilance and good governance, vigilance administration and institutional frameworks, the roles of Central Vigilance Commission (CVC) and Chief Vigilance Officers (CVO), whistleblower complaints handling, conduct rules, departmental enquiry procedures, procurement principles and challenges, roles

of investigating officer and presenting officer, enquiry under the POSH Act, implications of penalties and case studies. Dr. Seema Jaggi, ADG (HRD), Education Division, ICAR, highlighted the pivotal role of vigilance officers in upholding integrity and transparency within institutions. Dr. Gopal Lal, Director of ICAR-NAARM encouraged participants to apply their enhanced knowledge to improve governance and quality standards in their respective organizations. **[Program Directors: Dr. D. Thammi Raju and Shi Vivek Purwar]**

Fig. 2.33. Training of Master Trainers on Vigilance Perspectives (Nov. 17-19, 2025)

Training Program on Innovations in Digital Extension

A 5-day training program on 'Innovations in Digital Extension' was organized during Nov. 17-21, 2025, which was attended by 25 participants (including 12 women) from 10 states representing ICAR, SAUs and KVKs. The program was designed to highlight advantages of various digital innovations, viz., social media, online survey tools, decision support systems, interactive platforms & presentation software, web content design and development, AI & IoT applications and digital video to enhance the capabilities of extension professionals through a blend of lectures, demonstrations, interactive discussions and extensive hands-on practice. **[Program Directors: Dr. N.A. Vijay Avinashilingam and Dr. R. Venkattakumar]**

(Nov. 17-21, 2025)

Training Program on Meta-Analysis

This 5-day training program was organized during Dec. 8-12, 2025 at the Academy. The course was designed to include theoretical and practical aspects of meta-analysis including its importance, PRISMA model, data extraction and creating meta-analysis datasets, effect sizes, fixed and random effect models, assessing heterogeneity, model fitting and visualization, sub-group analysis and meta-regression, assessing publication bias, interpretation and reporting. The hands-on sessions were conducted using R/ R-Studio. Other important tools such as JASP, JAMOVI and web plot digitizer were also introduced to the participants (30 nos. with 22 men and 8 women). **[Program Directors:** Dr. A. Dhandapani and Dr. B.S. Yashavanth]

Fig. 2.35. TP on Meta-Analysis (Dec. 8-12, 2025)

Training Program for Master Trainers under Rashtriya Karmayogi Large-scale Jan Seva Program

A 3-day training program of the Rashtriya Karmayogi Jan Seva Program was organized by

the Academy during Dec. 15-17, 2025, which was actually under Phase II for Zone V Institutes. A total of 36 Master Trainers from 21 ICAR Institutes from Southern India i.e. IIRR, CRIDA, NMRI, DPR, IIMR, NAARM from Hyderabad, NIRCA Rajahmundry, IIOPR Pedavegi, SBI Coimbatore, CIARI Port Blair, CPCRI Kasargod, CTCRI Trivandrum, DCR Puttur, NBAIR, IIHR & NIANP Bengaluru, IISR Kozhikode, NRCB Tiruchirappalli, CMFRI Kochi, CIBA Chennai, CIFT Cochin participated in the program. The primary objectives were to enable the Master Trainers to gain comprehensive understanding of the core philosophy, and framework of the program and to familiarize the master trainers with tools and digital training platform pedagogy. **[Program Coordinators:** Shri Vivek Purwar and Shri Navin Kumar Jha]

Fig. 2.36. TP for Master Trainers under Rashtriya Karmayogi Jan Seva Program (Dec. 8-12, 2025)

Training Program on Precision Agriculture Using Drones and Remote Sensing Data

A 5-day training program on 'Precision Agriculture Using Drones and Remote Sensing Data' was organized during Dec. 15-19, 2025. The program witnessed participation of 26 people representing ICAR institutes, SAUs, KVKs and private organizations reflecting the growing interdisciplinary interest in advanced agricultural technologies. This was designed to provide both theoretical understanding and practical exposure

precision agriculture, drone technologies and their applications in agriculture, principles and applications of remote sensing for agricultural monitoring, and data processing and analysis techniques using geospatial and analytical tools. Special emphasis was placed on integration of drone-based data with satellite imagery for informed decision-making in agricultural management. **[Program Directors: Dr. P.D. Sreekanth and Dr. A. Dhandapani]**

Fig. 2.37. TP on Precision Agriculture Using Drones and Remote Sensing Data (Dec. 15-19, 2025)

Training Program on Psychometry and Scaling Methods

A 5-day training program on 'Psychometry and scaling methods' was organized during Dec. 15-19, 2025 to enhance the skills of extension professionals in understanding, measuring and analyzing psychological constructs such as awareness, knowledge, attitude, perception and personality for scientifically assessing behaviour towards adoption of farm innovations. The program comprised of theoretical sessions,

Fig. 2.38. TP on Psychometry and Scaling Methods (Dec. 15-19, 2025)

hands-on exercises, case studies and expert online lectures. The program was attended by 22 participants from KVKs, SAUs and ICAR institutes. **[Program Directors: Dr. R. Venkattakumar and Dr. Mahantesh Shirur]**

Training Program on Organic Farming in the Milieu of Changing Climate

A 5-day training program on 'Organic Farming in the Milieu of Changing Climate' was organized during Dec. 15-19, 2025. A total of 21 including 4 women learners participated in the same. The program aimed to enhance participants' understanding of organic farming practices in the context of climate variability and climate-resilient agricultural systems. It covered key thematic areas including principles and standards of organic farming, climate change impacts on agriculture, soil health management, organic nutrient management, pest, disease and weed management and climate-resilient cropping systems. **[Program Directors: Dr. M. Ramesh Naik and Dr. D. Damodar Reddy]**

Fig. 2.39. TP on Organic Farming in the Milieu of Changing Climate (Dec. 15-19, 2025)

VI. TRAINING WORKSHOPS/ SEMINARS/ WEBINARS/ CONFERENCES

Orientation Workshop on Mission Karmayogi

The Capacity Building Unit of the DARE, ICAR and ICAR-NAARM, Hyderabad organized an orientation workshop on Mission Karmayogi at NASC complex, New Delhi on Feb 27, 2025. The program was conducted in a hybrid mode,

enabling participation of ICAR officials from across the country (more than 350 nos.). The workshop aimed to familiarize ICAR officials with the principles and implementation of Mission Karmayogi, the National Program for Civil Services Capacity Building (NPCSCB) which focusses on enhancing the efficiency and effectiveness of government employees. The program was graced by Dr. (Mrs.) Alka Mittal, Member (Adm.), CBC; Smt. V. Lalithalakshmi, IAS, CEO-Karmayogi Bharat; Dr. Himanshu Pathak, Secretary, DARE & DG, ICAR; Dr. Ch. Srinivasa Rao, Director, ICAR-IARI; Dr. R. C. Agrawal, DDG (Ag. Edn.) & Chairman, CBU- DARE/ ICAR; Dr. S. K. Sharma, Nodal officer, iGOT & ADG (HRM), Dr. Gopal Lal, JD, ICAR-NAARM and Dr. Rakesh Verma, COO-Karmayogi Bharat. Dr. Pathak in his presidential address encouraged ICAR officials to leverage digital learning platforms for continuous skill enhancement and professional excellence. **[Program Directors:** Dr. S. K. Sharma, ADG (HRM), ICAR; Dr. N. K. Jain, PS, HRM Unit, ICAR; Dr. B. Ganesh Kumar, Head (HRM) and Dr. Ramasubramanian V., Head (RSM), ICAR-NAARM]

Fig. 2.40. Orientation Workshop on Mission Karmayogi (Feb 27, 2025)

Brainstorming Session on Implementation of National Education Policy (NEP 2020) in Agricultural Universities

A 2-day national-level brainstorming session on 'Implementation of National Education Policy in Agricultural Universities: Status, Challenges and Way Forward' was organized during May 27-28, 2025. The workshop was jointly organized

by ICAR-NAARM, Education Division of ICAR, New Delhi, and BAERC, New Delhi. The event witnessed participation of 110 delegates including Deans of SAUs, senior faculty members from ICAR-NAARM, and representatives of BAERC. The program was graced by Dr. R.C. Agrawal, DDG (Ag. Edn.) & Director, ICAR-NAARM, Dr. Bimlesh Mann, ADG, Dr. Gopal Lal, Joint Director, ICAR-NAARM and BAERC dignitaries Shri Dinesh Kulkarni, Margdarshak, Shri Adv. Pramod Chaudhary, National President, Dr. S.K. Dubey, National Vice President, Dr. Makarand Karkare, General Secretary and Shri K. Sai Reddy, All India President of BKS. Five technical sessions were organized to chalk out NEP Implementation strategies, VI Deans' Committee recommendations, vocational education and natural farming. The program ended with recommendations on curriculum reform, faculty capacity building and enhanced institutional linkages. **[Organising Secretary:** Dr. Gopal Lal; **Program Coordinators:** Dr. S. Senthil Vinayagam, Dr. Mahantesh Shirur and Dr. D. Thammi Raju]

Fig. 2.41. Brainstorming Session on Implementation of NEP 2020 in AUs (May 27-28, 2025)

Training Workshop on Analysis of Multi-Environment Trials

A 3-day training workshop on 'Analysis of Multi-Environment Trials' organized during Sept. 17-19, 2025 (online mode) was attended by 36 learners (19 men and 17 women). The content of the workshop included theoretical and practical aspects of R & R-Studio; L1, L2 and L3 analysis of multi-environmental trials; exploring G x E

interaction; bi-plots & AMMI; stability analysis and selection indices. **[Program Directors:** Dr. A. Dhandapani and Dr. B.S. Yashavanth]

Fig. 2.42. Training Workshop on Analysis of Multi-Environment Trials (Sept. 17-19, 2025)

Content Development Workshop for Certificate Course on Managing FPOs

A content development workshop for a Certificate course on 'Managing Farmer Producer Organizations' (as a MOOC) was organized on Nov. 11, 2025 at the Academy. Dr. Gopal Lal, Director, ICAR-NAARM, delivered the inaugural address, appreciating the initiative and emphasizing the need for interactive, application-oriented content, including HR management and production-related components. Dr. Tavva Srinivas, Head, ABM Division emphasized the significance of FPOs in ensuring farmer collectives' sustainability and improving their access to markets and value chains. He also informed that developing online course on

Fig. 2.43. Content Development Workshop for Certificate Course on Managing FPOs (Nov. 11, 2025)

FPOs was one of the recommendations of 8th QRT. Faculty members (11 nos.) deliberated on module finalization, learning outcomes, content guidelines and timelines. **[Workshop Coordinators:** Dr. Kuldeep S. Choudhary and Dr. Sivaramane N.]

Training Workshop on Generative AI Tools for Agriculture

A 3-day training workshop on 'Generative AI tools for Agriculture' was organized during Nov. 26-28, 2025. A total of 29 participants including 5 women representing 14 research disciplines from 8 ICAR Institutions, 7 Agricultural Universities, 3 government and 2 private organizations participated in the program. During the workshop, the participants were provided with theory and hands-on practical sessions on various generative AI tools and software. This program laid the foundation and equipped the participants with the necessary skillset to analyze real time data pertaining to their problem statement. **[Program Directors:** Dr. M. Balakrishnan and Dr. Gopal Lal]

Fig. 2.44. Training Workshop on Generative AI Tools for Agriculture (Nov. 26-28, 2025)

33rd Annual Conference of Agricultural Economics Research Association (India)

The Academy organized the 33rd Annual Conference of the Agricultural Economics Research Association (AERA) during Dec. 1-3, 2025 in collaboration with IFPRI-South Asia, ICRISAT and RIS. The conference focused on

'Innovations in Agribusiness, Empowering Women in Agriculture and Climate-Resilient Agriculture'. The event brought together leading researchers, policymakers, academicians and industry stakeholders for high-level discussions through inaugural and valedictory sessions, symposia, memorial lectures, technical sessions, panel discussions, poster presentations and policy dialogues. Over 150 papers and posters were presented, with participation from around 350 delegates, fostering collaboration and evidence-based policy dialogue. Prof. Ramesh Chand, Member, NITI Aayog, inaugurated the conference and highlighted agricultural policy priorities, technological transformation and strategies for enhancing farmer income and resilience in the context of Viksit Bharat. Dr. Himanshu Pathak, Director General, ICRISAT, and Dr. A.K. Sood, Deputy Managing Director, NABARD, attended as Guests of Honour and shared insights on institutional support and emerging opportunities in Indian agriculture. Dr. P.K. Joshi, President, AERA, emphasized the importance of the conference themes, while Dr. Anjani Kumar, Secretary, AERA, presented a brief history of the association. Conference President Dr. Samarendu Mohanty highlighted the evolving role of agricultural economists, and Dr. Gopal Lal, Director, ICAR-NAARM, noted the significance of hosting the event during NAARM's Golden Jubilee year. A key highlight was the Dr. G.K. Chadha Memorial Lecture by Prof. Vijay Paul Sharma, Chairman, CACP, on agricultural price policy. While chairing the plenary session, Prof.

(Dec. 1-3, 2025)

S. Mahendra Dev, Chairman, Economic Advisory Council to the Prime Minister presented an overview of Indian economy and transformational change taking place in agriculture sector in the country to achieve Viksit Bharat. [**Organizing Secretary:** Dr. Ranjit Kumar]

VII. MASSIVE OPEN ONLINE COURSES (MOOCs)

Massive Open Online Course [MOOC] on 'Artificial Intelligence in Agriculture'

A MOOC on 'Artificial Intelligence in Agriculture' was organized during Feb. 1-28, 2025 to sensitize the stakeholders of agri-domain about various concepts of artificial intelligence, machine learning, IoT and cloud computing. The course was divided into four sections over a period of four weeks. This MOOC recorded registrations of 3,603, out of which 559 participants met the requirements for certification generating an amount of Rs. 13,19,240. The 1st section covered the concepts of artificial intelligence, machine learning, deep learning and IoT. In the 2nd section, the participants were exposed to various tools and technologies like ChatGPT, Teachable machine, python software and python IDE by which participants can write python programs. In the 3rd section, hands-on experience to the participants was provided in the area of image processing in agriculture where they were able to classify the images using matlab and opencv packages. In the 4th section, various startups who

Fig. 2.46. MOOC on 'Artificial Intelligence in Agriculture'
(Feb. 1-28, 2025)

already implemented AI based application were showcased. **[Course Directors:** Dr. V.V. Sumanth Kumar and Dr. G.R.K. Murthy]

MOOC on Introduction to Bioinformatics

A MOOC on 'Introduction to Bioinformatics' was offered by the Academy during Oct. 1 to Nov. 30, 2025, in which 366 participants enrolled, out of which 178 candidates completed the course requirements and assessments. The course comprised more than 40 hours of learning and was structured into four comprehensive units covering bioinformatics fundamentals, biological databases, sequence alignment and phylogenetic analysis, and protein structure prediction and validation. The Course was delivered through e-content including short video lectures, reading materials, discussion forums, assignments, practice tests, quizzes and assessments. The course enabled participants to gain theoretical understanding and practical skills in bioinformatics, including database usage, sequence analysis, algorithmic approaches and computational protein structure analysis. **[Course Directors:** Dr. M. Balakrishnan and Dr. P. Supriya]

Fig. 2.47. MOOC on 'Introduction to Bioinformatics' (Oct. 1 to Nov. 30, 2025)

Certificate Course on Teaching Management (CCTM)

An online two-month 'Certificate Course on Teaching Management' was organized during Nov. 1 to Dec. 31, 2025 in which 175 participants were enrolled, and 155 have successfully completed the final exams. The course comprised more than 40 hours of learning covering 4 blocks (including a total of 16 units) through e-content i.e., short videos, reading reference materials, discussion forum, assignments, practice tests, zoom doubt clearing sessions, mid-term examination and final examination. The course provided knowledge to the participants on aspects such as effective teaching management, educational psychology, instructional design development and educational policies and framework, planning and implementation. **[Course Directors:** Dr. K.N. Yamini and Dr. Dipesh Debnath; **Course Coordinator:** Dr. L. Muralikrishnan]

Fig. 2.48. Certificate Course on Teaching Management (Nov. 1 to Dec. 31, 2025)

3

ACADEMIC/ EDUCATIONAL PROGRAMS

The Academy marked its debut in the NIRF 2025 rankings (101-125 band in Management) and received NBA accreditation for its PGDM-ABM program. Highlights of the program were successful admission of 2025-27 Batch, diverse summer internships and 100% final placements. The Academy organized educational tours, industrial visits, SANKALP 10.0, and exposure visits to industry exhibitions and conclaves for the benefit of the students. It is a matter of pride that our students won numerous national-level prizes during the last year (Annexure II Table 3a).

NAARM makes its debut in NIRF 2025 Rankings

The Academy has made its first-ever appearance in the prestigious National Institutional Ranking Framework (NIRF) 2025 rankings announced by the Ministry of Education. The academy has secured a place in the 101– 125 band in the Management discipline category, standing out among 1,026 participating institutions from across the country. This recognition highlights the growing national significance of NAARM's unique contribution to the management discipline, particularly in the agricultural sector. Established in 1976, ICAR-NAARM was set up to build capacity of the National Agricultural Research and Education System (NARES) in India. Over the years, the Academy has emerged as a leading institution in blending agricultural sciences with modern management practices. NAARM started its Post Graduate Diploma in Management (Agri Business Management) or PGDM(ABM) in 2009. This program is not only approved by AICTE but also accredited by NBA and recognized by AIU. It has consistently attracted bright students from across the country and has been successful in grooming the young talent for managerial

roles in industries. With its debut in the NIRF Management discipline rankings, ICAR-NAARM has reinforced its position as a premier institute nurturing managerial and entrepreneurial talent in the agricultural sector.

Fig. 3.1. NAARM securing a place in the 101–125 band in Management Discipline in NIRF 2025 rankings

Educational Tour-cum-Industrial Visit for the Students of PGDM-ABM

An educational tour-cum-industrial visit for PGDM-ABM students (2023-25 batch) was organized during Mar. 12-17, 2025. The objective of the visit was to provide students with much needed exposure to leading academic and research institutions as well as agribusiness companies in Karnataka. The institutions, organizations and agro-industries visited were CFTRI and Mysore Park Experience Centre, Tata Coffee Limited and Kodagu Coffee Growers Cooperative Society Ltd. in Coorg, CAMPCO in Puttur, Kalbavi Consumer

Foods Pvt. Ltd. in Mangalore, Karavali Agrotech Industries and Kamat Rice Mill & Kamat Oil Industry in Gokarna. **[Program Director: Dr. B. Ganesh Kumar]**.

Visit to Organic Farm

PGDM (ABM) (2024-26) students visited Sri Sukhavasi Hari Babu's Organic Farm at Muchintal village, Shamshabad Mandal, Ranga Reddy District, Telangana as part of a course on Organic Farming, Contract Farming, FPOs & Rural Marketing on Aug. 1, 2025. The visit provided valuable insights into sustainable agriculture and natural farming practices. Sri Hari Babu, founder of Sri Atal Bihari Vajpayee Organic Research Centre, has been practicing natural farming since 1990 and developed a 10-acre model farm cultivating more than 100 varieties of exotic fruits, rare herbal plants and forest trees without the use of chemical fertilizers or pesticides. His farm, based entirely on zero-budget natural farming principles, has evolved into a hub of learning for agricultural scientists, KVK experts, farmers, bank officers, agri-entrepreneurs and students.

Fig. 3.2. Visit of PGDM-ABM (2024-26 Batch) students to Organic Farm (Aug. 1, 2025).

Visit to GUBBA Cold Storage

The PGDM-ABM (Batch 2024-26) students visited Gubba Cold Storage, Yellampet, Medchal, Telangana as part of a course on Organic Farming, Contract Farming, and FPOs on Aug. 8, 2025. Established in 1967, Gubba is a pioneer in India's cold chain sector with six units of which four

dedicated to seed storage, offering a capacity of nearly 10 lakh cubic feet and serving over 500 seed companies. Students learnt about seed inspection processes, inventory traceability and specialized infrastructure such as the germplasm bank and vaccine storage facilities. The visit highlighted how cold storage reduces wastage, ensures seed viability, strengthens compliance and supports innovation in supply chains. Students also learnt about the contracts or agreement between seed farmers and companies.

Fig. 3.3. Visit of PGDM (ABM) (2024-26 Batch) students to GUBBA Cold Storage (Aug. 8, 2025).

SANKALP 10.0

SANKALP 10.0, a national-level business competition was organized by the Academy during Sept. 27-28, 2025. Marking a decade of 'Connection, Competition and Collaboration', an Annual B-fest event was organized by PGDM-ABM students in association with NAARM PG Alumni Association. The event attracted an overwhelming participation from 1,867 institutions including several top tier institutions like IITs and IIMs, across country creating a record of 13,759 registrations, a 30% increase over the previous year. This event coincided with golden jubilee celebrations of the Academy and to commemorate the same, two new events (Samarthya: The Marketing Challenge and Arthmanthan: The Financial Intelligence Battle) were added to the existing eight events. The inaugural program on Sept. 27, 2025 was presided over by Dr. Gopal Lal, Director,

ICAR-NAARM with Shri Ch. Srinivas, Executive Director, NFDB, Hyderabad as Chief Guest and Mr. Apparao Veldi, HR Business Partner, Advanta Enterprises Limited as Guest of Honor addressed the gathering and shared their insights on innovation, leadership and the importance of

youth-driven initiatives in shaping the future of agriculture. The event was sponsored by NFDB, Advanta Seeds, Paradeep Phosphates Ltd., a-IDEA, Swanpack Packaging Machines Pvt. Ltd. and Dodla Dairy Ltd. [**Chairman of Organizing Committee:** Dr. Tavva Srinivas]

Fig. 3.4. SANKALP 10.0, a National-level Business Competition (Sept. 27-28, 2025).

Visit to Poultry India Exhibition

The PGDM-ABM students of the batch 2025-27 batch visited the 17th edition of Poultry India Expo 2025 on Nov. 26, 2025 held at HITEX City, Hyderabad, Telangana. The visit provided the students exposure to the poultry industry in

which a wide range of stakeholders involved in poultry production, feed manufacturing, hatchery operations, animal healthcare, processing, automation and allied services participated. The exhibition served as an effective learning platform for the students.

Fig. 3.5. PGDM-ABM students visiting Poultry India Exhibition (Nov. 26, 2025).

Rural Marketing Association of India (RMAI) Conclave

The PGDM (ABM) 2025-27 batch students attended the RMAI Agri Conclave 2025 at HITEX, Hyderabad on Dec. 12, 2025. The event brought together policy makers, business leaders, innovators and grassroots change-makers to deliberate on transformative strategies for Indian

agriculture, with support from various sponsors and partners. The agenda included a keynote session in which Director, ICAR-NAARM highlighted research activities of ICAR and technologies developed for solving the problems confronted by Indian farmers. The students got the opportunity to interact with agribusiness industry leaders.

Fig. 3.6. Rural Marketing Association of India (RMAI) Conclave 2025 (Dec. 12, 2025).

Summer Internship (2024-26)

For the PGDM (ABM) 2024–26 batch, the Summer Internship Program (SIP) reflected a diverse sectoral distribution. The highest share of students (35.85%) secured internships in the Agri Input sector, followed by the Banking, Financial Services and Insurance (BFSI) sectors (15.09%), and Agri-tech Startups (11.32%). All the students received internship from reputed agribusiness and consultancy companies.

Final Placement (15th Batch: 2023-25)

PGDM-ABM students of the Academy secured 100% placement record for the 15th Batch as

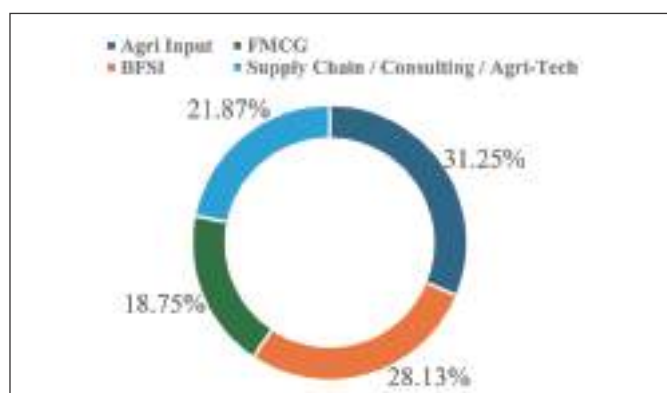

Fig. 3.7. Sector-wise placement of PGDM-ABM students (15th Batch: 2023-25) of the Academy

well. The final placement witnessed a diverse distribution across various sectors. The Agri Input sector emerged as the top recruiter, accounting for 32.25% of the placement followed by the Banking, Financial Services and Insurance (BFSI) sector (30.64%), FMCG companies (16.12%) and the Supply Chain sector (6.45%).

NBA Accreditation for Academy's PGDM-ABM Program

PGDM-ABM Program of the Academy got accredited by National Board of Accreditation (NBA) during the period, which will be valid for next three years (till 2028). The Expert Committee visited the Academy during Aug. 29-31, 2025.

Fig. 3.8. NBA Accreditation visit by experts for Academy's PGDM-ABM Program (Aug. 29-31, 2025)

The Coordination team was led by Dr. Gopal Lal, Director and Dr. Tavva Srinivas, Head, ABM Division along with Faculty of ABM division, PG Studies Unit & Placement Unit and Students.

Prizes won by PGDM-ABM Students of the Academy

The PGDM-ABM students (2023-25 and 2024-26 batches) of the Academy participated in national-level competitions and showcased their remarkable accomplishments. Representing ICAR-NAARM at events hosted by premier institutions such as IIPM Bengaluru, IIM Ahmedabad, IIT Kanpur, IIT Hyderabad, IIT Bhubaneswar, ABV-IITM Gwalior, ISAB, Greater Noida, Krea University and VAMNICOM Pune. Students have earned accolades in business plan competitions, case study challenges and cultural events. The detailed list of prizes won by PGDM-ABM Students of the Academy during 2025 is given in Table 3a of annexure.

Fig. 3.9. Gold medal won by Monish Gowda T.P. (PGDM-ABM Student) at FLAME Awards (RMAI), VJIET, Hyderabad (Feb. 28, 2025)

Fig. 3.10. First prize won by Anwesha Roy and Akash Sharma (PGDM-ABM Students) at Prarambham (B-Plan Competition), ISAB, Greater Noida (Dec 5, 2025)

Project Work of PGDM-ABM Students of 2023-25 batch

Students' project work carried out reflects a strong integration of agribusiness management concepts with real-world industry engagement. The studies covered diverse domains such as dairy management, millet value chains, export analysis, farmer producer organizations (FPOs), agri-financing, crop economics, supply chain management, digital marketing, and sustainable agriculture practices. Several projects focused on market research and consumer behaviour analysis for value-added products, organic foods and emerging health segments. More students undertook feasibility studies and impact assessments related to sustainable intensification plans, organic farming networks, carbon markets, and direct seeded rice practices. Others explored agri-tech innovations, IoT applications, fintech models, livestock insurance and AI-driven communication strategies, highlighting the growing role of technology in agriculture. Industry-oriented projects emphasized brand positioning, BTL marketing strategies, export potential analysis, retail operations, cold storage systems and business development models. Financial and economic analyses included growth rate estimation, decomposition studies, agri-financing trends and microfinance impact assessments. Overall, the projects undertaken demonstrated a balanced blend of analytical research, field-based data collection, strategic planning and industry collaboration aimed at enhancing managerial competence and promoting sustainable agribusiness development. The detailed list of project work completed by PGDM-ABM students of 2023-25 batch is given in Table 3b of Annexure II.

Admission Process for PGDM-ABM (17th Batch)

The Academy successfully completed the selection process for admission to the 17th batch (2025-27) of PGDM-ABM Program during May

8-16, 2025. To facilitate candidates from different regions, along with the Hyderabad Centre, three Satellite Centres were set up at NRC for Grapes, Pune; ICAR-IARI, New Delhi; and ICAR-CIFE Regional Centre, Kolkata. The selection process was held at Pune (May 8-9), New Delhi (May 13-14), Hyderabad (May 13-16), and Kolkata (May 16). Out of 660 applications received, 462 were shortlisted for the Analytical Writing Skill Test (AWST), Group Discussion (GD) and Personal Interview, with 315 candidates attending. Sixty-two students got admitted in the Program.

Fig. 3.11. Admission Process for PGDM-ABM (17th Batch)

4

RESEARCH PROGRAMS

The Academy implemented a diverse portfolio of research projects spanning agribusiness, education systems, human resource management, extension, geospatial analytics and research systems management. Key projects examined financing gaps in agri-startups, operational challenges in crop insurance, gender mainstreaming in agricultural schemes and impact assessment of flagship programs such as PM-KISAN. Significant achievements include development of commercialization models for grassroots innovations, creation of digital and VR-based educational frameworks, establishment of bioinformatics and NGS analytical workflows, and geospatial estimation of crop area using SAR data. The institution also strengthened intellectual property management through copyright and trademark registrations, contributed to national R&D resource surveys and generated policy-relevant insights for resilient agricultural and food systems.

I. Agribusiness Management (ABM)

Exploring the Financing Landscape for Agri Startups in India: Key Challenges and Strategic Solutions

This project analyzes alternative funding sources, financial models and government support for Indian agri-startups. The study revealed that while India's share of global agri-startup investment surged to 21% in 2024, yet a critical financing gap persists, leaving 76% of startups unfunded. It was also found that 73% of funding was below ₹25 lakhs, which was insufficient for scaling. Consequently, unfunded tech and non-tech startups faced higher failure rates (up to 30%) compared to funded ventures, with over half collapsing within three years. While tech startups in e-commerce and farm solutions dominated the

funded landscape, non-tech ventures remained concentrated in processed foods.

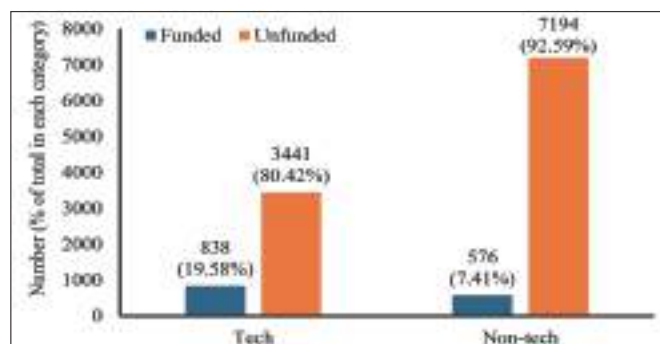

Fig. 4.1. Number of agri-startups as per funding Status during lifetime

The study identified that although 23 central schemes provide over ₹10,000 crores, support was largely restricted to early-stage grants (45%), with only 10.4% of startups reaching Series A. Key hurdles included a 3.4 year wait for first funding and a “profitability paradox” of negative EBITDA despite high revenues.

Fig. 4.2. Funding Type Distribution of Central Government Schemes for Agri-startups

Assessing Crop Insurance in India: An Analysis of Accessibility, Awareness and Operational Gaps

The Pradhan Mantri Fasal Bima Yojana (PMFBY) is India's flagship crop insurance scheme aimed at mitigating production risks due to climatic

variability. This pilot study evaluated PMFBY performance in Maharashtra with a district-level focus on Latur, Nanded and Beed in the Marathwada region. Using a mixed-method approach, secondary PMFBY data (2018-19 to 2024-25) and primary survey data from 120 farmers were analyzed. Composite indices were constructed to assess awareness, delays, compensation adequacy, inclusiveness and operational efficiency, while a Linear Probability Model examined determinants of farmer satisfaction. Findings showed universal enrollment but serious implementation gaps. Average claim settlement took 133 days, exceeding mandated timelines and farmers received only 76% of claimed amounts, with none fully compensated. Settlement delays significantly reduced farmer satisfaction.

Development of Agri-preneurship and Agri-business Models for Grass Roots Innovations (GRIs)

A systematic process was undertaken to assess, refine and validate promising grassroots innovations with commercialization potential. Six technologies, namely, Banana Pseudostem Injector, Poultry Raking Machine, Mini Hybrid Solar Dryer, Fish Descaling Machine, Sound Systems for Wild Animals and Birds, and Aqua Robo were identified and finalized through expert screening and stakeholder consultations. To strengthen the market readiness of the selected innovations, focused efforts were undertaken to develop viable agri-business models and commercialization pathways. An orientation on market research methodology was organized for RuTAG 2.0 innovators on May 8, 2025, during which a structured template was given to innovators for preparing systematic market assessment. Series of other activities were executed during the period including CBP for RuTAG 2.0 innovators and demonstrations of mini solar hybrid dryer & Banana pseudo stem injector at Thencherimalai FPC, TN and ICAR KVK-MYRADA, Gobichettipalayam (Erode),

TN. Extensive outreach activities organized included interactions with bankers, Producer Organizations Promoting Institutes (POPIs), FPOs at Tirupati, Hyderabad and Vizag, KVK scientists, policymakers and sectoral experts, alongside focused mentoring sessions for selected innovators. A Stakeholders Consultative Meeting for RuTAG 2.0 Innovations was conducted at ICAR-NAARM, Hyderabad with 120+ participants helped to establish strong institutional linkages with NDRI, NDDB, KVKs, SAUs, APEDA, MPEDA, NFDB, agricultural departments and MSME agencies. Additionally, support was extended for obtaining testing and performance certificates for GRIs from ICAR-CIFT, Kochi, and ICAR-CIAE (RS), Coimbatore.

II. Education Systems Management (ESM)

Development of implementation framework for NEP 2020 in Agri. Education

Under the project, data collected from 337 faculty / administrators and 691 students (undergraduate/ post graduate/ doctorate) and the outputs of three workshops were considered for development of framework for implementation NEP 2020 in Indian Agricultural Universities. The implementation framework included six major thrust areas viz., (i) evolution into large multidisciplinary universities; (ii) digital education, (iii) enhancing gross enrolment ratio; (iv) education management (competencies, pedagogy); (v) governance and academic leadership (change management) and (vi) integration of vocational and professional education. Results showed that stakeholders were having awareness of NEP, attitude and preparedness for implementation of NEP 2020, apart from its challenges and suggestions. The students' responses indicated perceived awareness of NEP 2020, anticipated benefits of its implementation and its alignment with global education standards. They also articulated expectations regarding enhancements in the quality of agricultural education, projected the potential impacts of NEP 2020 over the next

decade and outlined the roles of students in this context.

Understanding behavioral intentions of learners in MOOCs in Digital Agricultural Education - Strategies to Enhance MOOCs

Under the project titled ‘MOOCs in Digital Agricultural Education - Strategies to Enhance MOOCs’, a study was conducted to understand learner behavior by exploring underlying factors influencing learners’ behavioral intentions (BI) to adopt and continue using MOOCs. It integrated three theoretical frameworks: (i) Technology Acceptance Model (TAM) – focusing on perceived usefulness (PU) and perceived ease of use (PEOU); (ii) Theory of Planned Behavior (TPB) – emphasizing attitudes (ATT), perceived behavioral control (PBC), and subjective norms (SN), and (iii) Task-Technology Fit (TTF) –

explaining how well the platform’s features align with users’ learning tasks. Additionally, the study incorporated the effects of openness (OPN), institutional reputation (REP), individual technology fit (IT), social recognition (SR), and social influence (SI), aiming to build a comprehensive model that reflects the realities of MOOC adoption in India. A structured survey was deployed on the MOOC on Digital Assessment and Evaluation Methodology. A total of 445 responses were collected, representing a cross-section of learners engaged with the platform and participating in Academy’s MOOCs. The Partial Least Squares (PLS) Structural Equation Modelling (SEM) technique supported by Confirmatory Factor Analysis (CFA) was used to validate measurement and structural models. Table below highlights that out of the 19 hypotheses tested, 14 were supported while 5 were not supported.

Table 4.1. The Partial Least Squares (PLS) Structural Equation Modelling (SEM)

Code	The Hypothesis	t-values	Path Coefficient	P values	Result
H1	ATT -> BI	11.006	0.514***	0.000	Supported
H2	PBC -> BI	3.852	0.171***	0.000	Supported
H3	PBC -> ATT	2.476	0.149**	0.014	Supported
H4	SN -> BI	1.711	-0.044	0.088	Not Supported
H5	SN -> ATT	0.635	0.024	0.526	Not Supported
H6	PU -> ATT	2.329	0.113**	0.020	Supported
H7	PU -> BI	2.321	0.073**	0.021	Supported
H8	PEOU -> ATT	7.507	0.518***	0.000	Supported
H9	PEOU -> PU	5.626	0.519***	0.000	Supported
H10	IT -> PU	0.911	-0.092	0.363	Not Supported
H11	IT -> PEOU	3.641	0.246***	0.000	Supported
H12	TTF -> PU	2.492	0.223**	0.013	Supported
H13	TTF -> PEOU	4.722	0.272***	0.000	Supported
H14	OPN -> PU	0.216	-0.014	0.829	Not Supported
H15	OPN -> PEOU	4.001	0.157***	0.000	Supported
H16	REP -> PU	3.836	0.254***	0.000	Supported
H17	SR -> PU	2.041	0.130**	0.042	Supported
H18	SI -> PU	3.187	0.117***	0.002	Supported
H19	SI -> ATT	1.739	-0.049	0.083	Not Supported

*** Significant at 1 % level ** Significant at 5% level

The study confirmed that learners' attitudes and perceived behavioral control were the most critical predictors of their intention to use MOOCs in Indian context. A user-friendly interface (PEOU) strongly shapes learners' attitudes, while perceived usefulness reinforces motivation and engagement. Institutional reputation also plays a vital role in shaping usefulness perceptions, aligning with learners' need for credibility and trust. The results highlighted the nuanced role of openness and individual innovativeness. Similarly, tech-savvy users might find it easier to navigate but do not necessarily perceive greater benefit without high-quality content.

Operationalizing Digital Content for MOOCs in Dairy Education

In this collaborative project between NAARM Hyderabad and NDRI Karnal to develop online content for chosen courses in Dairy Science and Technology, a total of four courses were developed during Jan. 2024 to Sept. 2025, viz., Traditional Indian Dairy Products (21 modules), Cheese Science and Technology (14 modules), Food Packaging and Labelling (17 modules) and Fat-Rich Dairy Products (17 modules). Besides, two courses, namely 'Commercial Dairy Farming' and 'Milk Processing and Value Addition' were run in MOOC mode to cater to the learning needs of students, entrepreneurs, start-ups and dairy enthusiasts. A total of 2,637 learners enrolled across both courses, reflecting a strong interest in capacity building and skill development in the dairy sector.

Initiating Research and Development in Virtual Reality for Agricultural Higher Education

As part of the project on 'Assessing the Effectiveness of Virtual Reality (VR) Resources in Agricultural Higher Education', the Academy has initiated research and development in virtual reality (VR) for enhancing agricultural higher education. All available VR modules relevant

to agricultural education were searched, out of which twelve modules were screened and identified for the study. These modules covered diverse domains including crop phenomics, protected cultivation, hydroponics, advanced irrigation methods, seed life cycle, animal anatomy, assisted reproductive technologies, fish anatomy, and agricultural machinery. The modules were sourced from various ICAR institutes and agricultural universities, reflecting interdisciplinary applications of VR in agricultural higher education. The project team also developed and delivered VR-based training and awareness programs, including national-level sessions on AR/VR innovations in modern agriculture and immersive content preparation. Additionally, VR headsets were procured to support hands-on learning and future virtual practical sessions. The next phase of the project aims to install identified modules on VR devices and organize structured virtual practical classes for students, thereby strengthening experiential learning and technology-enabled education in agriculture.

Evolving Fisheries Education Landscape of India

The present study looked at restructuring of UG course curriculum in Fisheries Science contemplated by Deans' Committees (DCs) constituted by ICAR. The 3rd (1995), 4th (2006), 5th (2017) and 6th (2024) DC reports were analysed with reference to the prescribed courses, emerging trends in curriculum design and credit allocation. There were 60 core courses during 3rd DC with 130 credits, which were restructured/abridged/ repealed to 47 courses with the same credits during 4th DC. This phase (3rd to 4th DC) witnessed a significant increase in credits in the 'aquaculture' discipline from 13.1 to 24.6% with the concurrent increase in the number of courses from 7 to 12. Similarly, 'aquatic environment' also received more importance. The 5th DC could be considered as a milestone as it streamlined disciplines (departments) and the courses within

them. It increased and renamed number of departments from five in 4th DC to seven in 5th DC (viz., Fisheries extension, economics and statistics, Fisheries resources and management, Aquaculture, Aquatic environment management, Aquatic animal health management, Fish processing technology, and Fisheries engineering) with concomitant increase in core credits (from 130 to 140) and number of courses (from 47 to 59). The most recent 6th DC further restructured/ added several courses to address and prepare the graduates for future challenges. Further, the addition of compulsory non-credit courses, multidisciplinary courses, value-added/ ability/ skill enhancement courses will assist the students for self-employment or to make them industry-ready.

III. Human Resource management (HRM)

Motivational Factors Driving Scientific Personnel: Identification of Strategies for Scientific Excellence

The study aimed at identifying the motivational factors driving the scientific personnel, assessing stress levels among scientific personnel, finding relationship between motivational factors and stress levels and developing strategies for improved performance of scientific personnel. Data were collected through questionnaires using online surveys and in physical mode. The tools used were Big-Five Inventory (BFI-10), Short Index of Self-Actualization (SISA), Meaning in Life Questionnaire (MLQ) and Depression, Anxiety and Stress Scale (DASS 21). The sample consisted of research scientists working in the National Agricultural Research and Education System (NARES) in India. A total of 191 respondents participated in the study. The study indicated that men scientists had more extraversion, agreeableness, conscientiousness and openness while women exhibited more neuroticism. Women scientists attained more self-actualization (32.8%) than men scientists (28.7%). Internal self-concept motivation was

found to be the strongest source of motivation for research scientists.

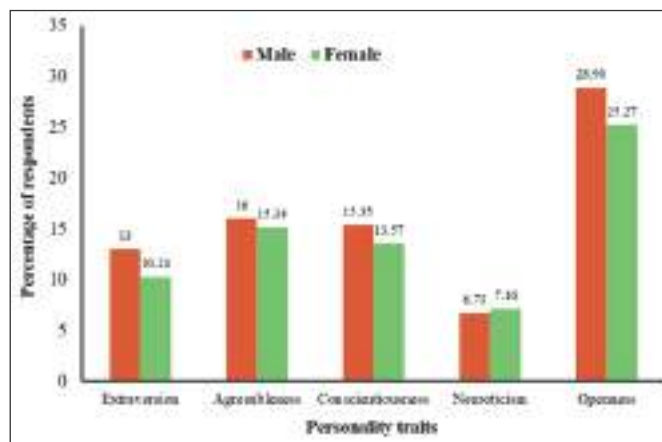

Fig. 4.3. Big-Five personality traits of research scientists of NARES

National S&T Survey on Resources devoted to R&D Institutions in Agriculture

The NSTMIS-DST Project on 'National S&T Survey on Resources Devoted to R&D Activities in Agriculture' served as an evidence-base for S & T assessment and policy formulation. This survey-based study captures current R & D landscape from around 5000 organizations including public and private sectors, MNCs, higher education, SIROs and NGOs spread across the country. Specifically, the present study collected data from public R & D Institutions in Agriculture on financial investment and human resources. Time allocation of researchers in agriculture R&D institutions was recorded. Allocation of expenditure on various heads such as salaries, operational/program and capital costs was analyzed for the period 2021-22, 2022-23 and 2023-24. The salient findings included: (i) researchers spent about 68 and 46% of their time on research in ICAR and SAUs, respectively; (ii) institutions spent only 28 and 20% of their funds on operational and program costs in ICAR and SAUs, respectively; (iii) ICAR had only 37% of the manpower as Scientists; and (iv) share of scientists from Crop science disciplines was more than those from allied disciplines. It was suggested that more investment should be made

on R & D and efforts should be made to generate more resources; more recruitments be made for scientific staff and composition of researchers in ICAR should be looked at to diversify the intake from non-crop science disciplines.

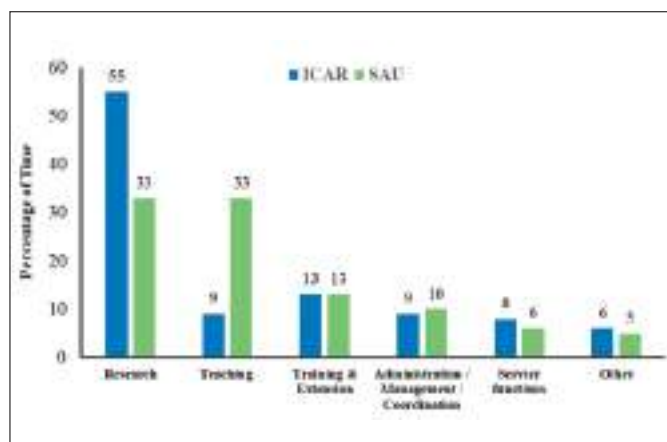

Fig. 4.4. Time allocation of researchers on various activities in ICAR & SAUs

IV. Extension Systems Management (XSM)

Competency Mapping and Skill Gap Assessment of KVK Professionals in India

Based on the desk study and expert discussion, an instrument with 12 indicators of competency needs with 87 statements was designed and then standardized through pilot testing. The same was circulated among the KVK professionals for documenting their responses in a five-point continuum (highly competent, competent, moderately competent, do not have expected competency and not having competency). Responses from more than 250 professionals was received including that of ATARI Zone VII (NEH Zone), from where 226 professionals responded. Hence, the complete data received from NEH Zone was analyzed using descriptive statistics. The indicator-wise major competency needs of the KVK professionals were identified as (i) competency in handling innovative extension models/ approaches, (ii) competency towards handling participatory approaches, (iii) competency towards extension research and psychometry, (iv) competency towards

monitoring, evaluation and impact assessment of extension programs, (v) competency towards promotion of entrepreneurship and agribusiness, and (vi) competency towards agricultural laws and government schemes.

Development of a framework for gender mainstreaming in the development schemes of Agriculture sector in India

This project aimed at developing a methodological framework for assessment of gender attribution in developmental schemes of agriculture. Secondary data from reports and websites and primary data from 480 farm women were collected to assess how gender budgeting and agricultural schemes translate on the ground. Findings revealed that while 79% of households own land, only 10% of women hold land titles, restricting their economic agency. Scheme participation is highly uneven: NRLM reached 72% of respondents, while targeted schemes such as Namo Drone Didi (12%), Mahila Coir Yojana (15%), and the Biogas Program (1%) showed minimal uptake. Major barriers included bureaucratic complexity (36.7%), unpaid care responsibilities, restrictive social norms and lack of gender-focused dialogue in scheme implementation. Impact analysis showed that schemes generated stronger social empowerment than economic or psychological empowerment, indicating that social capital creation was not adequately translating into sustained financial independence and decision-making power. Based on these insights, the project proposed a practical framework for gender mainstreaming, emphasising women's land rights, SHG-based delivery systems, women-centric extension services, simplified administrative processes and mandatory gender-disaggregated reporting by Gender Budgeting Cells.

Management and Impact Assessment of Farmer FIRST Project

ICAR-NAARM is a partner institution in the project management consortium, mandated to

support the management of Farmer FIRST Project (FFP) through capacity building, documentation, information showcasing and impact assessment. Onsite field visits were made to FFP villages of PAU, Ludhiana; GADVASU, Ludhiana; ICAR-CIPHET, Ludhiana; ICAR-IGFRI, Jhansi; ICAR-CPCRI (RS), Kayamkulam; ICAR-IIWM, Bhubaneswar and TANUVAS, Chennai during the year. Focused group discussions were organized with farmers & FFP teams and good practices for scaling up were documented. Three farmers from FFP villages were selected and awarded with the “Innovative Farmer Award” on the occasion of 50th Foundation Day of ICAR-NAARM on Sept. 1, 2025.

Holistic assessment of PM-KISAN on Farmers’ Livelihoods

Beneficiary farmers were predominantly small and marginal landholders and had relatively better access to irrigated land. Agriculture was the main source of income, with beneficiaries showing greater access to institutional credit, particularly crop loans. PM-KISAN funds were largely used for household and farm needs such as education, healthcare, nutrition and loan repayment, contributing to improved financial stability. Beneficiary farmers recorded higher gross cropped area, better yields and greater returns per acre, especially in paddy. They also showed a higher capacity to hire machinery and undertake contractual operations, indicating improved operational efficiency. Adoption of modern technologies including drones, drip irrigation, harvesters, drum seeders, vermicomposting, hybrid rice, and nano-urea was more pronounced among beneficiaries, reflecting the enabling role of income support in farm modernization. Farmers also reported increased confidence, reduced financial stress, timely access to inputs and improved social recognition among the fellow farmers.

V. Information and Communication Management (ICM)

KRISHI: ICAR Research Data Repository for Knowledge Management

During the year, two new AICRPs, namely All-India Network Project on Tobacco Improvement (AINPT) under ICAR-NIRCA, Rajahmundry and All-India Coordinated Research Project on Spices under ICAR-IISR, Kozhikode have started using AICRP Information System developed by the Academy. To start with, breeding trials from the current season will be created and analyzed using the system. The AICRP Information System has been used by the three AICRPs (Maize, Sorghum and Small Millets). During the last season, 82 experiments in about 800 locations by AICRP on Maize, 40 experiments in 188 locations by AICRP on Sorghum and 20 experiments in 118 locations by AICRP on Small Millets were created and analyzed through the system. New features such as Visualizing Yield vs Phenological Traits in Maize are being developed for improved decision making.

Development and Validation of Integrated Workflow for Next Generation Sequencing Data Analysis in Agriculture

The project aimed to develop a comprehensive, user-friendly workflow that integrates various bioinformatics tools and processes for NGS data analysis and also to enhance capability of researchers to handle and analyze large-scale NGS data efficiently. The focus was on close collaboration with agricultural researchers to gain a thorough understanding of their specific research needs and the challenges they encounter in data analysis. Based on these requirements, appropriate bioinformatics tools and computational platforms were identified and selected for seamless integration into the overall analytical framework. As part of this effort, a comprehensive workflow for whole genome data analysis was developed, along with a structured

analytical workflow for transcriptome data analysis. The detailed steps and components of these workflows are illustrated in the figures.

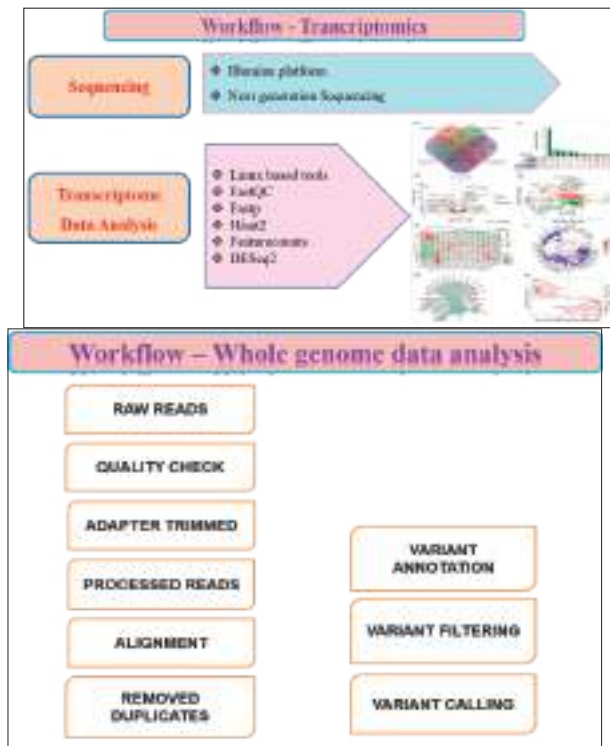

Fig. 4.5. Integrated Workflow for Next Generation Sequencing Data Analysis in Agriculture

Comprehensive Geo-spatial Analysis of Environmental Change in Farming

Accurate estimation of paddy cultivated area is crucial for effective agricultural management and environmental assessment. To overcome the limitations of conventional ground-based surveys, this study employed Sentinel-1 Ground Range Detected (GRD) Synthetic Aperture Radar (SAR) data. Sentinel-1 provides C-band SAR data (5.405 GHz) with all-weather, cloud-penetrating capabilities, making it highly suitable for crop monitoring applications. The dataset is available in four polarization modes, each with specific advantages and limitations. Among these, VH polarization was primarily used due to its high sensitivity to vegetation structure and moisture variations characteristic of paddy fields. Pre-processed Sentinel-1 GRD data were analyzed using the Google Earth Engine (GEE) platform. Temporal variations in backscatter were examined

at 15-day intervals to effectively capture the growth dynamics of paddy crops. The study was conducted in Navipet Mandal of Nizamabad District, Telangana during the Kharif season. A total of 144 Ground Control Point (GCP) samples representing various land-cover classes—namely paddy, water bodies, built-up areas, scrubland, mining, and orchards—were collected. Of these, 73 samples corresponding to paddy fields were used to train a Random Forest classifier for paddy area classification and estimation. The spatial distribution of paddy derived from the Sentinel-1 SAR-based classification is presented in the Figures below. The estimated paddy area was 29,720.32 acres, compared to the reported value of 27,527 acres from the literature, resulting in an error variation of -7.96% .

Fig. 4.6. Ground Control Points of Navipet Mandal

Fig. 4.7. Paddy distribution derived from Sentinel-1 SAR-based classification in Navipet Mandal

Identification of Similarity in Research studies using Machine learning

This research project aims to develop a methodology for identifying similarity in

research studies, which can be employed to identify similarity in research studies conducted in NARES. A total of 17,744 abstracts containing the word “paddy” or “rice” published in scientific journals during 2013-23 was collected from the Scopus database. From this data, a simple random sample of 20% abstracts were utilized for finding out similarity. After pre-processing the text data, each pair of abstracts were tested for similarity using cosine similarity measure. In addition, SPECTER, a BERT model was employed to measure the similarity between abstracts. The BERT model indicated that about 10% of the abstracts have >0.8% similarity.

VI. Research Systems Management (RSM)

Emerging trends and research priorities for the development of Indian Dairy Sector

Under this project, data were collected on investments and outputs in veterinary science institutions. Emerging research trends in dairy research in India were analyzed with scientometric analysis using scopus database. With respect to research on functional cheese, the leading institutions were University of Guelph and Cornell University with focus shifting from microbiology and food safety to probiotics, machine learning and sustainability. With regard to research on whey protein, transition from fundamental protein characterization to functional foods and advanced technological innovation could be observed. In the domain of renewable energy and climate research, research on biogas from animal dung increased at an annual growth rate of 16.91% for the period 2000–2024 and India, Indonesia and Nigeria led in research output. On research in climate change and livestock farming, highest publications were made after 2020 on emerging themes such as machine learning, sustainable agriculture and alternative farming systems. On precision dairy farming, the research was focused on animal welfare modeling, behavioral analysis and integration of digital technologies.

Dynamics of Agriculture and Food Systems in Different Agro-ecosystems of India

The research project mapped and analyzed dietary patterns, production trends and consumption shifts across India, revealing rural-urban differences and diversification away from rice toward wheat, coarse cereals, pulses, fruits and animal-source foods. A state-level demand-supply assessment for Telangana identified major surpluses (i.e., rice, mango, tomato) and critical deficits (i.e., pulses, milk, banana, lemon), highlighting agroecosystem constraints and infrastructure gaps shaping food system outcomes. Yield gap analysis across cereals, pulses and horticultural crops exposed production bottlenecks and provided insights into future food security risks, dietary adequacy challenges and supply reliability. Actionable strategies could be crop diversification toward high-value horticulture, promotion of climate-resilient varieties and strengthening post-harvest infrastructure and market linkages for sustainable and resilient food systems.

IP Management and Transfer/Commercialization of Agricultural Technologies Scheme Duration

During the year, many different intellectual property-related activities were undertaken including registration of three copyrights, namely ‘Recent advances in organic farming research’, ‘Promotion of interdisciplinary research in Indian agriculture: Strategies and opportunities’, and ‘Methodology for quantifying methane emissions through remote sensing’. In addition, two copyrights were filed: ‘Science communication through popular articles: A technical compendium’ and ‘Home science graduate of Udaipur turned interior designer: Success speaks’. Three trademarks were successfully registered, namely NAARM PG Alumni Association, its logo under Classes 41 and 35, and AGGNITE. Further, the IP Help Desk actively facilitated various ICAR institutes and startups by conducting prior art searches to support the filing of intellectual property rights particularly patents.

Global Best Practices for Agricultural Universities in India

An ICAR Policy paper titled 'Global Best Practices for Agricultural Universities in India' was prepared to outline global best practices for enhancing agricultural universities in India to boost research, innovation and competitiveness. Practices from USA (credit transfers, learning communities), UK (ICT literacy, faculty evaluation), Germany (no/low tuition, independent study), and others included flipped classrooms, sandwich courses (France), problem-based learning, and student-centered approaches like MOOCs and flipped models (Singapore). It further emphasized IP commercialization, entrepreneurship incubation and philanthropic endowments for resource sustainability, digital tools, inter-sectoral collaborations (Netherlands), and continuous assessments highlighted in NAHEP surveys. The policy recommended phased implementation of flexible curricula, regulatory changes, international exchanges, industry collaborations and entrepreneurship focus to align with the recommendations of NEP 2020. The policy paper was released by Dr. R. C. Agrawal, DDG (Edn), ICAR in the presence of Dr. Anuradha Agrawal, Director, DKMA and Dr. Gopal Lal, Director of the Academy.

Fig. 5.1. Release of Policy Paper by Dr. R. C. Agrawal, DDG (Edn.)

Enabling Women Agripreneurs in India: Needed Interventions

A policy paper titled 'Enabling Women Agripreneurs in India: Needed Interventions' was developed to strengthen and empower women agripreneurs across the country. The paper underscores the need for a dedicated database on women agripreneurs at both state and national levels to facilitate networking and creation of robust agripreneurial ecosystems. It highlights the role of government agencies and financial institutions in increasing awareness of agripreneurship opportunities and related financing schemes. The paper further recommends that human resource development institutions place greater emphasis on building agripreneurial competencies and enhancing personal and leadership skills of women agripreneurs. It also stresses the importance of societal and familial support in enabling a healthy work-life balance. To streamline support services, the paper proposes establishment of a Women Agripreneurship Cell (WAC) at district level, particularly within KVKs to function as a single-window platform addressing diverse needs of women agripreneurs. The policy paper was released by Dr. Himanshu Pathak, DG, ICRISAT and Dr. H.P. Singh, Former DDG (Hort.) on Jul. 7, 2025.

Fig. 5.2. Release of Policy Paper by Dr. Himanshu Pathak, DG, ICRISAT and Dr. H.P. Singh, Former DDG (Hort.)

6

AGRI-INNOVATION DEVELOPMENT AND NURTURING

The Association for Innovation Development of Entrepreneurship in Agriculture (a-IDEA), is a business incubation centre hosted by ICAR-NAARM, Hyderabad. The a-IDEA is fostering innovation and entrepreneurship in agriculture in India since 2014 across all possible domains of agriculture and allied sectors. It aims to help entrepreneurs ideate, incubate and accelerate their innovative early-stage startups that are scalable to become a viable food and agri-business ventures through capacity building, mentoring, networking, investment and advisory support. These startups are in turn disrupting the value chains of agriculture across farm gate to food plate and beyond, thereby impacting the lives of farmers, rural and urban stakeholders. The activities of a-IDEA are financially supported by different schemes of DST, BIRAC, DBT, NABARD, SIDBI, MeitY and Startup India.

Focus Area of a-IDEA

Fig. 6.1. Focus areas of Agri-Innovation Development and Nurturing at a-IDEA

The a-IDEA is mainly working on two verticals: Startup ecosystem and FPO ecosystem.

A. STARTUP ECOSYSTEM

1. Sensitization

a-IDEA, ICAR-NAARM, Hyderabad organized a Sensitization Program on “Entrepreneurship

Development in Veterinary Sciences” for the students of Rajasthan University of Veterinary and Animal Sciences (RAJUVAS), Bikaner, with the objective of promoting entrepreneurial awareness. A total of **177 students and faculty members** participated in the program virtually.

Fig. 6.2. Sensitization Program

2. Ideation - Aggnite 5.0: Business ideation competition for students

Aggnite was organized from March to June 2025 as a national-level ideation competition to inspire students towards agricultural entrepreneurship and create awareness about the startup ecosystem. The competition received 290 applications, which were evaluated through a three-tier virtual assessment process based on innovation, problem-solving ability, team competency, and presentation skills. Three winners were awarded during the Demo Day of Agri Udaan 7.0 by Dr. Ashok Dalwai, IAS (Retd.) at Bangalore on 26 June 2025.

Fig. 6.3. Winner of Aggnite 5.0

3. Incubation

KRISHIBOOT, the flagship incubation programme of a-IDEA, ICAR-NAARM supported by NABARD, along with the ABI Incubation Programme in collaboration with ICAR-NAARM, provides startups access to incubation support, mentorship, resources, and an enabling

ecosystem. These programmes invite individuals and early-stage startups with innovative ideas, prototypes, or MVPs and nurture them towards sustainable growth. During 2025, several startups were successfully incubated through KRISHIBOOT 7.0 & 8.0 and ABI 3.0 & 4.0 calls.

Table 6.1. Startups incubated by ICAR-NAARM during 2025

Host State	Name of the Startups
Assam	Bihangam India ¹
Gujarat	HerbalDreams Seeds & Biotech ⁴
Haryana	Dassonz Consumer Healthcare ¹
Karnataka	Dr. Sonia Maria D'souza ¹ ; Fysikos Iyseis ¹ ; Harvestwild Organic Sol. ¹ ; Agrythm Technologies ² ; Denseed Agrotech ² ; Vkf Agri Farms ³ ; Agribotic Systems ⁴
Kerala	Havnoz Biomoluxe ¹ ; Ms. Mariya Maliyekkal Shaju ²
Madhya Pradesh	Ambao Krishi Kutumb ²
Maharashtra	Sakura Biotech ¹ ; Biowall Agrihealth ¹ ; BioFizz Agritech ¹ ; AgriSavant ¹ ; Bhrukooti Agro-Tech ³ ; Agointel Analytics ³
Odisha	Scylene Wellness ¹
Punjab	Eradika (OPC) ¹ ; Circlo Biosciences ¹
Rajasthan	Sustainovators ²
Tamil Nadu	Mr. Hariharan M ¹ ; Tealaa Innovations ¹ ; Farmcircuits ¹ ; Palm Era Foods ³ ; SuperFins Aquatic Technologies ³
Telangana	SRR Agro Industries ¹ ; RubiscoBlack Environmental Technologies & Services ¹ ; Ascription Technologies ¹ ; ABR Consulting Services ¹ ; Flyberry Gourmet Retail ¹ ; OriginHash ³ ; Intecog Logistech ³ ; Vaaradhi Farms ³ ; Her health Essentials ⁴
Uttar Pradesh	Mr. Deepak Pal ¹ ; Neuterics Foods ⁴
West Bengal	Ingreva ²

4. Acceleration

4.1 AGRI UDAAN® 7.0: Accelerator program of a-IDEA

The seventh edition of food & agribusiness accelerator program of a-IDEA, ICAR-NAARM viz. AGRI UDAAN® 7.0 was launched at Hyderabad on Aug. 22, 2024. Under this, a-IDEA received 257 applications, out of which through three-stages of screening processes, a total of Seventeen (17) startups were selected under various sectors.

Accelerator Mentorship Program (AMP)

The Accelerator Mentorship Program (AMP) for the selected start-ups under AGRI UDAAN 7.0 were organized during February 19-21, 2025 at the Academy during which selected startups were

mentored for deep understanding in the domain knowledge by the experts. Seventeen start-ups from various sectors, including Agri-EV, Poultry, Cattle Advisory, E-Marketplace, Agri-IoT, Food, Aquaculture, Advanced Agri-Machine, Waste to Wealth and veterinary attended the program.

Fig. 6.4. Participants of Accelerator Mentorship Program of Agri Udaan 7.0 of a-IDEA

Demo Day

The AGRI UDAAN 7.0 Demo Day was held on 26th June 2025 at Bengaluru to support the selected cohort of startups by providing a platform to pitch before investors, enabling scale-

up, funding access, and ecosystem networking. The Demo Day was attended by about 105 participants, including investors, scientists, ecosystem enablers, and startup founders.

Fig. 6.5. Participants of Demo Day of a-IDEA's Agri Udaan 7.0

4.2. AGRI UDAAN® 8.0

The eighth edition of food & agribusiness accelerator program of a-IDEA, ICAR-NAARM viz. AGRI UDAAN® 8.0 was launched on 6th Nov 2025 at Novotel HICC, Hyderabad. The program aimed to identify and nurture promising food and agribusiness startups across

India through mentorship, industry networking, investor linkages, and funding support. The event was attended by over 150 participants from government, agritech startups, venture capital firms, industry, banking, NGOs, incubators, FPOs, and academia.

Fig. 6.6. AGRI UDAAN® 8.0 launched on 6th Nov 2025 at Novotel HICC, Hyderabad

Roadshows

a-IDEA, ICAR-NAARM organized Roadshows for Agri Udaan 8.0 to create awareness among the startups in different part of the country and inviting agri-startups for the onboarding in acceleration program. Apart from online webinars, physical roadshows were conducted at SKIT, Jaipur on 19th

Dec 2025 and at CIM Patna on 23rd Dec 2025. Both the roadshows brought together more than 300 agri-startups, students, innovators, investors, mentors, academicians and industry experts on a common platform to promote innovation in agriculture and allied sectors.

Fig. 6.7. Agri Udaan Roadshow at Jaipur, Rajasthan

Fig. 6.8. Agri Udaan Roadshow at Patna, Bihar

5. Investment/Seed Fund

a-IDEA continued its active investment support to innovation-driven startups in the Agri and Allied sectors during 2025 by providing financial assistance, strategic mentoring, and ecosystem support to enable sustainable growth. Under the BIRAC BIG (DBT) 24th Call, selected startups received grants of up to ₹50 lakh to advance biotechnology innovations. Through the NIDHI-PRAYAS 5th Call, early-stage startups were

supported from idea to prototype. Under the MeitY–SAMRIDH 2.0 Scheme, a cohort of eight startups received matching investment fund following due diligence and SHA execution. To address cash flow challenges, startups were supported under NABARD-CCF 4th Call through soft loans, debt, equity, or blended instruments. Additionally, under the Startup India Seed Fund Scheme (SISF), startups were assisted at the seed and Proof of Concept stage with seed funding.

Table 6.2. Startups supported by ICAR-NAARM with Investment/Seed Fund during 2025

Fund type	Name of the Startup
Equity	Attaware Biodegradable ¹ ; Drakon Innovation ² ; Zeroearth ¹ ; Chimertech ¹ ; Harvestwild Organic Solutions ¹ ; Biofizz Agritech ¹ ; Verdant One Health ³ ; Organikness ³ ;
OCD	Orchard Farm Fresh Vacuum Dried Fruits ² ; Biome Sustainability Ventures ² ;
CCD	Biowall Agrihealth ² ; Fysikos Iyseis ² ; Flyberry Gourmet Retail ²
Debt	Coffeefication ² ; Aseervad Agro And Food Processing ²
Grant	X Boson Ai ² ; Raftech Solutions ² ; Chemgreen Innovations ⁴ ; Inav Agromech ⁴ ; Dhi Sathi Robotics ⁴ ; JNPS Oxyjoy ⁴ ; Bioprobe Lab ⁴ ; SRR Agro Industries ⁵ ; Sakura Biotech ⁵ ; Greenortune Technologies and Products ⁵ ; Havnoz Biomoluxe ⁵ ; Scylene Wellness ⁵ ; Bihangam India ⁵ ; Dassonz Consumer Healthcare ⁵
Matching Investment Fund	Organikness Pvt Ltd ³ ; Verdant Impact ³ ; Farm Sathi ³ ; Fruvetechn ³ ; Planetgreen Tech and Trade ³ ; Cropcoin Technologies ³ ; Nudgetech Solutions ³ ; Akin Analytics Solutions ³

Note: 1 is NABARD CCF; 2 is DPIIT, SISF; 3 is MeitY, SAMRIDH 2.0, 4 is BIRAC BIG and 5 is NIDHI PRAYAS

6. Entrepreneurship Development Program on Startups for Students

Three Entrepreneurship Development Programs on Startups were organized by a-IDEA in collaboration with Sri Konda Laxman Telangana Horticultural University (SKLTHU) during

May 07-24, 2025. These intensive three-day capacity-building initiative aimed to cultivate entrepreneurial mindsets and equip 91 students with the skills needed to launch agri-startups and innovation-driven ventures in horticulture and allied sectors.

Fig. 6.9. Entrepreneurship Development Program on Startups for Students

7. Major Accomplishments / Awards Recognitions of a-IDEA supported Startups

Origin Hash Pvt. Ltd. won national Startup grand challenge at NIFTEM with ₹4 Lakhs Cash Prize and also won an international agri-hackathon 1st prize with ₹25 Lakhs Cash prizes.

GARUDALYTICS was recognized as a winner in the Growth-Stage Startup category under the esteemed Operation Dronagiri initiative by the Government of India & the Ministry of Science and Technology

IndiMeat won a Grand Prize of ₹10 Lakhs at the NER Tech Hackathon 2025. The event was organised by NERCORMS, Amantya Technologies, and NEC (MDoNER, Govt. of India).

Chimertech Pvt. Ltd. took the spotlight on Startup Singam – Tamil Nadu's first-ever TV show dedicated to startups and innovators on February

9, 2025 on STAR VIJAY TELEVISION PVT LTD and successfully raised ₹1.25 Cr in investment.

INAV Agro Mech Pvt. Ltd. had their 100th Rollout of the e-Zebu on 2nd August 2025 – a landmark achievement in their mission to empower farmers and revolutionize agro-mechanization.

Aumsat Technologies LLP has championed Indo-Japan Innovation for Sustainable Rural Development. Aumsat Technologies LLP and was selected by Japan International Cooperation Agency (JICA) India for a satellite-based leak detection pilot project in Uttarakhand to revolutionize rural water management.

Ascription Technologies has successfully completed 1.1 lakhs GODHAAR tagging in Tirupati. Their innovative animal management platform, GODHAAR, uses facial recognition to enable traceability, health monitoring, and identity verification bringing transparency and efficiency to livestock management.

BharatRohan® listed on BSE: With the initial boost through the prestigious BIRAC–BIG Grant, supported by the Department of Biotechnology, followed by early seed support from a-IDEA under the NIDHI-SSS program of DST, Government

of India, the startup has created a history with a landmark public listing on Bombay Stock Exchange (BSE) on 30th Sept 2025. Its journey is a shining example of how deep-tech innovation can transform Indian agriculture.

Fig. 6.10. BharatRohan® getting listed on BSE

B. FPO ECOSYSTEM

1. Agri-Business Management Development Program (ABMDP) for Prospective CEOs of FPOs for Tamil Nadu

The ABMDP for prospective CEOs of FPOs in Tamil Nadu is being implemented by a-IDEA in collaboration with MABIF, Madurai with funding support from NABARD Tamil Nadu Regional Office. The objective of the programme is to

develop skilled professionals capable of leading FPOs across Tamil Nadu as CEOs. In this regard, following a rigorous screening process, 30 graduate candidates were selected for the 60-day intensive training course followed by handholding support. The programme commenced on 1st Dec 2025.

Fig. 6.11. Agri-Business Management Development Program for Prospective CEOs of FPOs for Tamil Nadu

2. Agri Gativardhan: Accelerator Program for promising FPOs in Telangana & Andhra Pradesh

This initiative aims to strengthen selected existing FPOs through training, mentorship, financial support, and technology adoption. The 18-month duration program is supported by NABARD

regional office and focuses on improving governance, financial management, and market access to drive innovation, sustainability, and growth. The Agri Gativardhan included FPO Accelerator Mentorship Program, FPO-Startup Meet and FPO-Bankers Meet and FPO-Startup Meet and FPO-Bankers Meet along with need based FPO specific mentorship support.

Fig. 6.12. FPO-Startup Meet and FPO-Bankers Meet organized at ICAR-NAARM

3. FPO-Startup Immersion Programs

During the past year, three immersion programs were organised to connect FPOs/FPCs, Farmers

and Startups. These events were conducted at RARS, Tirupati, Andhra Pradesh; AAU, Guwahati, Assam and KVAFSU, Bidar, Karnataka.

Fig. 6.13. Immersion program organized at AAU, Guwahati, Assam

7

FARMER OUTREACH PROGRAMS

The Academy organized 35 Farmer Outreach Programs during 2025, covering a wide spectrum of agricultural and allied sectors. These programs collectively trained 1,502 participants, reflecting strong outreach and capacity-building efforts among farmers, rural youth and women. The Academy collaborated with over 25 KVKs across different states and partnered with 10 other institutions. These programs addressed more than 15 major areas of agriculture, including natural farming, integrated crop management, integrated farming systems, millets production and value addition, mushroom cultivation, dairy farming, goat and sheep rearing, backyard poultry, fish farming, bio-fertilizers and bio-pesticides, nutri-gardening, terrace gardening, waste-to-wealth initiatives, fruit and vegetable processing, cashew cultivation and rural entrepreneurship. Under the Viksit Krishi Sankalp Abhiyan (VKSA), Academy's scientists contributed to a large-scale pre-Kharif campaign reaching over 13 lakh farmers across 72 districts in different south Indian states. All these programs undertaken by the Academy are listed in Table 7 in Annexure III. Few of these programs are described below.

Training Program on Production, Processing and Value Addition of Small Millets

A 5-day Training Program on 'Production, processing and value addition of small millets' was organized for the farmers under SC-Sub-plan in collaboration with ICAR-All India Coordinated Research Project on Small Millets at ZARS, Mandya, Karnataka during Jan. 20-24, 2025. A total of 30 SC farmers (21 women and 9 men) from Irasavadi, Suttur and Y.K. Mole villages of Yelanduru Taluk, Chamarajanagara district of Karnataka participated and benefitted from the program. Entrepreneurship development through value addition in millets and demonstration of

value-added products from small millets were dealt with in the program. Three exposure visits to successful entrepreneurs in Mandya and Mysore districts of Karnataka were conducted. [Program Coordinator: Dr. B. Nirmala]

Fig. 7.1. Training Program on Production, Processing and Value Addition of Small Millets (Jan. 20-24, 2025)

Capacity Building Program on Integrated Farming System

A 5-day capacity building program on 'Integrated farming system' (IFS) was organized for SC farmers of rainfed area of Kolar district of Karnataka under SC Sub-plan in collaboration with All India Co-ordinated Research Project for Dryland Agriculture, GKV, Bengaluru during Feb. 21-25, 2025. A total of 30 farmers (23 men and 7 women) from Ramanagar and Kolar districts of Karnataka participated and benefitted from the program. The primary objective was to equip farmers with knowledge on IFS techniques to improve farm productivity and sustainability, enhance livelihood security by integrating cropping, livestock, agroforestry and organic farming, promote climate-resilient and resource-

Fig. 7.2. Capacity Building Program on Integrated Farming System (Feb. 21-25, 2025)

efficient agricultural practices for rainfed farming systems. [Program Coordinator: Dr. B. Nirmala]

Establishment of Custom Hiring Centre (CHC) in AP

A Custom hiring centre (CHC) was established by the Academy in Kokkerancha (adopted village), Kothapalle mandal, Nandyal District of Andhra Pradesh (AP) under SC Sub-plan and handed over to the village sarpanch (Shri Vishnuvardhan Reddy) in a meeting held on Mar. 21, 2025. During the event, training and demonstration programs were organized for the benefit of the farmers. This initiative would benefit 186 households in the village. [Program Coordinators: Dr. M. Balakrishnan and Dr. B. Nirmala]

Fig. 7.3. Establishment of Custom Hiring Centre (CHC) in Kokkerancha, Kothapalle, Nandyal, AP (Mar. 21, 2025)

Skill development training program on Mushroom Production technologies

The Academy in collaboration with ICAR-Krishi Vigyan Kendra, Mudigere organized a 5-day skill development training program on 'Mushroom production technologies' during Mar. 24-28, 2025. The trainees (40 in number) were exposed to basics of mushroom cultivation and hands-on practice on growing mushrooms in small-scale. [Program Coordinators: Dr. Mahantesh Shirur and Dr. Sneha Shigihalli]

Fig. 7.4. Skill development training program on Mushroom Production technologies (Mar. 24-28, 2025)

Training Program on Empowering SC Farmers and Women through Cashew Cultivation, Processing and Value Addition

The 5-day training program (Mar. 25-29, 2025) was jointly organized by ICAR-NAARM, Hyderabad; Keladi Shivappa Nayaka University of Agricultural and Horticultural Sciences (KSNUAHS), Shivamogga; Cashew Technology Centre (CTC), Shivamogga and ICAR-KVK, Shivamogga at CTC. A total of 40 farmers took part in the training program, which was organized with an objective to enhance farmers' skills in cashew cultivation, processing and value addition to improving their income generation opportunities. The sessions covered scientific methods of cashew farming, processing techniques, post-harvest management, marketing strategies and entrepreneurship development. [Program Coordinator: Dr. Mahantesh Shirur]

Fig. 7.5. Empowering SC Farmers and Women through Cashew Cultivation, Processing and Value Addition (Mar. 25-29, 2025)

Skill Development Training program on Scientific Sheep and Goat Rearing

A 3-day training program on 'Scientific Sheep and Goat Rearing' was organized at College of Veterinary Science, SVVU, Garividi, AP during July 3-5, 2025. The major goal of this program was to enhance livelihoods through additional income generation. Twenty women farmers from Vijayanagaram, Srikakulam and Visakhapatnam Districts of Andhra Pradesh participated in the program. The participants gained both theoretical and practical knowledge on farming including disease management, feed management and various schemes available for sheep and goat farming. During the valedictory session, critical

inputs such as ram lambs (3-4 months old) and 10 kg concentrated feed were distributed to each participant. **[Program Coordinator: Dr. M. Balakrishnan]**

Fig. 7.6. Skill Development Training program on Scientific Sheep and Goat Rearing (Jul. 3-5, 2025)

Skill Development Program on Value-added Products with Millets

To enhance livelihoods through income generation by promoting self-employment opportunities for women, the Academy organized 3-day skill development program on 'Value-added products with millets' for the farmers under SCSP during Sept. 15-17, 2025. The program aimed at building capacities of SC communities in millet-based value addition and rural entrepreneurship. A total of 24 women farmers from Suryapet district of Telangana participated and benefitted. Participants were trained in step-by-step process of preparing various value-added millet products. **[Program Coordinators: Dr. B. Nirmala, Dr. M. Balakrishnan and Dr. Laxman Ahire]**

Fig. 7.7. Skill Development Program on Value-added Products with Millets (Sept. 15-17, 2025)

Training Program on Nutri Gardening and Terrace Gardening

The Academy organized a 5-day training program on 'Nutri Gardening and Terrace Gardening' in

collaboration with Rashtriya Seva Samithi (RASS)-KVK, Chittor, Andhra Pradesh, under SC Sub-plan during Sept. 23-27, 2025. The program aimed to empower Scheduled Caste farmers, especially women, with knowledge and practical skills in nutrition-focused gardening, thereby enhancing nutritional security, sustainable agriculture and home-based food production. A total of 30 farmers (27 women and 3 men) attended the training. **[Program Coordinator: Dr. B. Nirmala]**

Fig. 7.8. Training Program on Nutri Gardening and Terrace Gardening (Sept. 23-27, 2025)

Skill Development Training on Backyard Poultry Management

The program titled 'Skill Development Training on Backyard Poultry Management' was organized by the Academy during Oct. 30 to Nov. 4, 2025 at KVK Banavasi. It comprised theoretical sessions and hands-on practical exercises, covering key aspects such as breed selection, feeding management, housing, health care, and control of common poultry diseases. Participants (37 in total with 16 women) actively engaged in all sessions. **[Program Coordinator: Dr. P. Supriya]**

Fig. 7.9. Skill Development Training on Backyard Poultry Management (Oct. 30 to Nov. 4, 2025)

Training Program on Backyard poultry

A 5-day training program on Backyard poultry was organized by the Academy during Dec. 8-12, 2025 in collaboration with Krishi Vigyan Kendra, Bhilwara, Rajasthan under SC Sub-plan. The program aimed to impart knowledge and develop skills of the farmers in backyard poultry farming. A total of 40 farmers (34 males and 6 females) attended the training. The farmers were educated on various aspects of backyard poultry rearing and gained both theoretical and practical experience in poultry management. **[Program Coordinator: Dr. B. Nirmala]**

Fig. 7.10. Training Program on Backyard poultry (Dec. 8-12, 2025)

Skill Development Training Program on Mushroom Cultivation and Food Processing

A 7-day SDTP on Mushroom Cultivation and Food Processing as part of entrepreneurship development through value addition initiative for farmers was organized at ICAR-KVK, Pattambi, Palakkad, Kerala during Dec. 15-22, 2025. The program aimed to build capacity of 30 SC farmers by imparting knowledge and practical skills in mushroom cultivation and food processing; providing hands-on training in value addition of fruits, vegetables, banana, mushrooms and spices;

Fig. 7.11. SDTP on Mushroom Cultivation and Food Processing (Dec. 15-22, 2025)

familiarizing participants with food preservation, packaging, storage, and quality control; creating awareness about FSSAI regulations, food safety, labelling, and preservatives and strengthening skills in marketing, branding, pricing and enterprise management to promote commercial-scale entrepreneurship. **[Program Coordinator: Dr. M. Balakrishnan]**

Viksit Krishi Sankalp Abhiyan (VKSA) (Pre-Kharif Campaign)

The Academy participated in Viksit Krishi Sankalp Abhiyan (VKSA), a Pre-kharif campaign for 15 days during May 29 to Jun. 12, 2025. The purpose was to create awareness about the technologies and government schemes among the farmers and assess their needs. Scientists of the Academy collaborated with ICAR-ATARI, Hyderabad and officials of development departments, cooperatives, NGOs and FPOs to reach the farmers. In Hyderabad zone (Telangana, Andhra Pradesh, Tamil Nadu and Pondicherry), the Abhiyan covered 72 districts through 216 team of scientists (including ICAR-NAARM) reaching more than 13 lakh farmers. **[Program Coordinator: Dr. R. Venkattakumar]**

LINKAGES AND COLLABORATIONS

A functional collaboration between ICAR-NAARM and ICAR-NDRI witnessed great success in the past year as we jointly offered a MOOC on 'Milk Processing and Value Addition' during Mar. 16 to May 15 May, 2025 in which a total of 1721 learners registered. It contained video resources, assignments, reflections and quiz. Evaluation considering the active participation of learners was done for certification purpose. The course had active participation from 906 learners of which 202 could qualify for certification, with a course completion rate of about 22 percent. The program was jointly coordinated by Dr.

G.R.K. Murthy from NAARM and Dr. Narender Raju from NDRI.

a-IDEA signed a Memorandum of Understanding (MoU) with Impact Hub, Hyderabad on May 6, 2025. The collaboration aimed to strengthen efforts in building locally rooted, globally connected communities capable of driving large-scale impact. The agreement was signed by Dr. Gopal Lal, Vice President of a-IDEA and Joint Director of ICAR-NAARM, and Dr. N. Sallagundala, Co-founder and CEO of Impact Hub, Hyderabad.

Fig. 8.1. Memorandum of Understanding (MoU) between a-IDEA, ICAR-NAARM and with Impact Hub, Hyderabad (May 6, 2025)

A Memorandum of Understanding (MoU) between a-IDEA, ICAR-NAARM and RVR & JCCE STP Foundation (RJ E-Nest); a DST-NIDHI funded inclusive Technology Business Incubator (iTBI) of R.V.R. & J.C. College of Engineering, Guntur was signed on Oct. 24, 2025 with a view to fostering

agri-entrepreneurship through joint incubation, technical mentoring, shared infrastructure, and collaborative programs, including hackathons, student competitions and innovation-driven events to support agriculture and allied sector startups.

REVIEW AND ADVISORY COMMITTEES

Third Meeting of IX Research Advisory Committee

Third meeting of IX Research Advisory Committee was held during Dec. 8-9, 2025. Dr. Gopal Lal, Director, welcomed the members and presented a comprehensive overview of Academy's activities for the preceding year. Dr Chintala Govindarajulu, Chairman desired that focus be given to strengthening consultancy services and collaborating with institutions like IIMs and international universities to enhance

quality of such services. Researchers must align lab innovations with the real needs of farmers and industries to bridge the gap between research and ground-level expectations. Dr. Tavva Srinivas, Head, ABM Division & Member Secretary presented the action taken report on the recommendations given during the second meeting. Two-day deliberations led to recommendations that will be helpful in the journey of the Academy towards Viksit Bharat.

Fig. 9.1. Third meeting of IX Research Advisory Committee (Dec. 8-9, 2025)

30th Institute Research Council (IRC) Meeting

The 30th Institute Research Council (IRC) meeting was held during Dec. 17, 18 and 29, 2025. Dr. Gopal Lal, Director, in his opening remarks,

appreciated Faculty's contributions to capacity building, academic and research activities of the Academy. During the meeting, a total of 30 in-house, 09 extra-mural and 14 new in-house projects were discussed in seven technical

Fig. 9.2. 30th Institute Research Council (IRC) meeting (Dec. 17, 18, 29, 2025)

sessions. One extramural project and six in-house projects were completed, while twelve new in-house projects were approved. Therefore, out of the 45 projects, 36 are in-house and 9 are extramural and on an average, there are 1.18 projects per scientist.

Institute Management Committee (IMC) Meeting

The 66th IMC Meeting of the Academy was held on Aug. 25, 2025 under the Chairmanship of Dr.

Gopal Lal, Acting Director. Senior officials of ICAR participated, along with Directors, division heads and representatives. The Chairman highlighted the Academy's key activities. Presentations covered ongoing training programs, research and academic initiatives, HRD activities, budget allocation and utilization for 2025-26, and progress of civil and electrical works. The IMC Members appreciated the significant achievements and provided constructive suggestions for further strengthening institutional development and performance.

HONORS, AWARDS AND RECOGNITIONS

Table 13.1. NAARM Foundation Day Awards 2025

Annual Performance Awards (2024-25)	Awardee
Best Scientist	Dr. R. Venkattakumar, Principal Scientist & Head, XSM Division Dr. N. A. Vijay Avinashilingam, Principal Scientist, XSM Division
Best Woman Scientist	Dr. B. Nirmala, Principal Scientist, ABM Division
Best Administrative Staff (Officer)	Sh. G. Raj Reddy, Assistant Administrative
Best Administrative Staff (Non-Officer)	Smt. T. Vanisri, PS to Director
Best Technical Staff (T-6 and above)	Sh. Sohail Ahmed Khan, Chief Technical Officer
Best Technical Staff (Below T-6)	Sh. Dharmendra Pratap Singh Gautam, Technician T-1
Best Skilled Support Staff (Male)	Sri. S. N. Rasool, MTS
Best Skilled Support Staff (Female)	Smt. V. Saroja, MTS
Best Young Professional (YP I/II/Project Staff)	1. Smt. Parupati Hinduja, YP-II (Establishment Sec. in Administration) 2. Smt. T. Indradevi, Project Staff (Digital Content Expert in ESM Division) 3. Dr. Jagadesh M., Research Associate (NAIF-Component-I, ZTMC)
Best PG Student	Ms. Pilli Sowmya Bhargavi (2023-2025) and Mr. Rishab Biswas (2023-2025)
Logo designing	Shri. Srinivas Pitla, STA
Special Recognition Award - Faculty	Dr. Ramasubramanian V, Principal Scientist & Head, Research Systems Management (RSM) Division
Special Recognition Award - Administrative	1. Dr. J. Renuka, Joint Director (OL) 2. Shri M.K. Samson, Assistant

Table 13.2. Honors/ Awards/ Recognitions received by the staff of the Academy during 2025

Name of the Staff	Honors/ Awards/ Recognitions
Dr. Gopal Lal	Felicitation Ceremony organised by Shri P.V. Narasimha Rao Memorial Charitable Trust, Jun. 28, 2025 Keynote Speaker at NITI Aayog - 'Ease of Doing R&D' Consultative Meeting Panelist - Indian Horticulture Congress Expert Panelist - IIT Hyderabad event
Dr. G. Venkateshwarlu	Elected as NAAS Fellow for the year 2025
Dr. Ranjit Kumar	Expert Member for the 'Establishment of Centre of Policy Research & Advocacy on Sustainable Agriculture' at PJTAU, Hyderabad. Member of Technical Advisory Committee (TAC) for Agro-Economic Research Centre (AERC) of Visva Bharti University, Shanti Niketan. Member of the Committee on Price Deficiency Payment Scheme (PDPS) for MSP in Cotton by the NITI Aayog, New Delhi.
Dr. B. Nirmala	'Fellow Mobilization Award-25' from the Society for Community Mobilization for Sustainable Development (MOBILIZATION), New Delhi, during the 12 th National Seminar on Futuristic Agriculture: Technology, Sustainability and Beyond held from May 22-24, 2025 at Umiam, Meghalaya.
Dr. Sanjiv Kumar	Dr. RT Doshi Best Paper Presentation Award in 33rd Annual Conference of AERA (India) held at ICAR-NAARM during Dec. 1-3, 2025

Name of the Staff	Honors/ Awards/ Recognitions
Dr. Kuldeep S. Choudhary	Expert member to evaluate M.Sc. thesis of Department of Agricultural Economics and Farm Management, JNKVV, Jabalpur.
	Expert member to evaluate thesis and conducting Ph. D student thesis viva voce of Department of Business Studies, Central University of Karnataka, Kalaburagi.
	Expert member to evaluate MBA thesis of two students of Institute of Agribusiness Management, JNKVV, Jabalpur.
	Executive Committee Member of Association for Management of Agricultural Research and Agripreneurship (AMARA)
Dr. D. Thammi Raju	'National Fellow of Indian Veterinary Extension Forum' during the First International and Tenth Conference of IVEF on Transforming Livestock and Rural Development: A Paradigm Shift in Teaching, Research and Extension (p. 142-154)
	Evaluation of proposals under Nidhi Prayas Grant 2025
	ICAR Nodal Officer for Transparency audit of suo-motu disclosure of information at ICAR Headquarters under Section 4 of the RTI Act
Dr. K.N. Yamini	Member in the thesis viva-voce examination of Mr. Azmeera Suresh, I.D. No. RAM/2021-75 at Department of Genetics and Plant Breeding, College of Agriculture, PJTAU, Rajendranagar, Hyderabad, on Nov. 4, 2025
Dr. Navneet Kumar	Research Recommendation for Development of perforated storage bin for garlic
	2 nd best oral presentation during International Journal of Food Science IIGASA-2025 at ICAR-CIWA, Bhubaneswar
	2 nd पुरस्कार - वैज्ञानिक लेख सार हर्दि प्रसुतुति प्रतियोगिता
	Academic Editor of International Journal of Food Science (Wiley)
	External Examiner for Ph.D. thesis evaluation in Govind Ballabh Pant University of Agriculture and Technology, Pantnagar
	External Examiner for Ph.D. thesis evaluation in Gujarat Technological University
Dr. Dipesh Debnath	Recognized by ICAR-IARI, New Delhi as Research Guide in ICAR-Hyderabad Hub
	Chairman, Committee for scrutiny of applications for selection of Executive Director (Tech), National Fisheries Development Board, Hyderabad
	External Member, Selection Committee for recruitment of Senior Executive (Tech), National Fisheries Development Board, Hyderabad
Dr. L. Muralikrishnan	External Examiner for Ph.D. thesis evaluation in Amrita School of Sustainable Futures, Amrita Vishwa Vidyapeetham, Coimbatore
Dr. N. Srinivasa Rao	Member, KRISHI Megh Operation & Management Committee, IASRI, ICAR
	Member, ICAR Data Centre Techno-Refreshment Committee
	Member, DPC for ARS Scientists, ICAR-CIRCOT
Dr. R. Venkattakumar	Jury Member-Sankalp 2025 (PGDM-ABM)
	External Expert-PhD Viva Voce, ANGRAU
	ICAR-NAARM Bagged best exhibition stall award from Hon'ble Minister of State for Road Transport, Highways and Corporate Affairs in the International AgriTech Expo on Agriculture, Horticulture and Organic Farming during June 2025
	External Expert in the IRC meeting of Social Sciences and Training Division of IIHR on Jul. 2, 2025
	Fellow Award from SEEA, Agra during the 2 nd IEEC held by SEEA at Bhubaneshwar on Nov. 24, 2025
	Best Stall Award at the Maha Kisan Mela organized at Kanha Shantivanam, Hyderabad during Dec. 3-4, 2025
	Nodal Officer for ICAR-NAARM for VKSA Kharif 2025, organized the visit of Acting Director to monitor VKSA activities by Scientists of ICAR-NAARM in Suryapet and Siddipet districts on Jun. 3-4, 2025

Name of the Staff	Honors/ Awards/ Recognitions
Dr. Surya Rathore	Jury Member for participants' presentations in Training Programme on Science & Technology for Disaster Risk Reduction held during Mar. 17-21, 2025 at LBSNAA, Mussoorie on Mar. 21, 2025
	Moderator for a session on Use of Technology - AI, 5G, IOT & Cutting-Edge IT Innovations for efficient disaster management at LBSNAA, Mussoorie on Mar. 18, 2025
	External Examiner for PhD thesis entitled, 'Accessible Digital Media in Video format on Comprehension of Basics of Entrepreneurship for Deaf' in Extension & Communication, The M.S. University of Baroda, Vadodara
	'Fellow Mobilization Award' by Society for Community Mobilization & Sustainable Development at College of Postgraduate Studies in Agricultural Sciences, CAU, Umiam, Meghalaya on May 24, 2025
	Member, National Organising Committee of the 12 th National Seminar on 'Futuristic Agriculture: Technology, Sustainability and Beyond' held at Central Agricultural University, Umiam (Meghalaya) centre held during May 22-24, 2025
	Certificate of appreciation for outstanding contribution to academic excellence of UG & PG programmes of IARI Megavarsity, Hyderabad hub during academic years 2023-25 on the eve of celebration of teachers' day at CRIDA, Hyderabad on Sept. 6, 2025
	Expert Member, Promotion Committee for Professor (Home Science) at Banaras Hindu University, Varanasi on Dec. 17, 2025
	Member Board of Studies (BOS), of Food Science department of Veeranari Chakali Ilamma Women's University, Hyderabad for a period of two years
	External Examiner for evaluation of PhD (Agricultural Extension) thesis of IARI, New Delhi
	Approved the panel of examiners for PhD thesis evaluation of Dept. of Extension & Communication, MS University, Baroda in the capacity of Member, Board of Studies on Nov. 24, 2025
	External Examiner for evaluation of two M.Sc. (Agri. Ext.) theses of TNAU, Coimbatore and one M.Sc. (Agri. Ext. & Comm.) thesis of Swami Keshwanand Rajasthan Agricultural University, Bikaner
	Nodal Officer for VKSA Rabi-2025 for Policy institutions of Telangana and prepared a Viksit Bharat: Road Map for Next Five Years (2025-2030) for Telangana
Dr. P. Venkatesan	The SEE Fellow Award from the Society of Extension Education during the 2nd International Extension Education Congress (IEEC-2025), held at SOA (Deemed to be University), Bhubaneswar, Odisha, and organized by the Society of Extension Education
	Certificate of appreciation for outstanding contribution to academic excellence of UG & PG programmes of IARI Megavarsity, Hyderabad hub during academic years 2023-25 on the eve of celebration of teachers' day at CRIDA, Hyderabad on Sept. 6, 2025
Dr. N.A. Vijay Avinashilingam	Certificate of appreciation for outstanding contribution to academic excellence of UG & PG programmes of IARI Megavarsity, Hyderabad hub during academic years 2023-25 on the eve of celebration of teachers' day at CRIDA, Hyderabad on Sept. 6, 2025
	Best Stall Award at the Maha Kisan Mela organized at Kanha Shantivanam, Hyderabad during Dec. 3-4, 2025
Dr. Mahantesh shirur	Expert in Annual Training workshop of EEI, Hyderabad on Feb. 11, 2025
Dr. Reshma gills	Best Poster Award in International Symposium on Marine Ecosystems challenges and Opportunities organized by The Marine Biological Association of India, Kochi and ICAR-CMFRI, Kochi
Dr. N. Srinivasa Rao	Member, KRISHI Megh operation & Management committee of IASRI, New Delhi
	Member, Analysis of requirement, scope, specifications, preparation & evaluation of Techno refreshment of ICAR Data Center of IASRI committee
	Member of DPC for ARS scientists at ICAR-CIRCOT, Mumbai

Name of the Staff	Honors/ Awards/ Recognitions
Dr. M. Balakrishnan	Member of IMC, Directorate of Poultry Research, Hyderabad
	Member of IMC, Indian Institute of Rice Research, Hyderabad
	Chairman of Poster evaluation at National Conference on Sustainable & Resilient Agriculture organized by Vanavarayar Institute of Agriculture, Manakkadavu, TN (Dec. 6, 2025)
	External Examiner of PhD thesis in Anna University, TN and IARI, New Delhi
	Academic Council Member, Malla Reddy University, Hyderabad, Telangana
	External Examiner of MVSc and PhD students at IVRI (Hyderabad Hub), DPR, Hyderabad on (Jul. 11, 2025)
Dr. Ramasubramanian V.	Convenor/ Chairman of a Session on 'Translational Agricultural Research-Role of Artificial Intelligence and Digital Technologies' at 75 th Annual Conference of Indian Society of Agricultural Statistics held at RPCAU, Samastipur during Mar. 20-22, 2025
	Expert in the State Level Technical Programme (SLTP) Meeting of Statistics & Computer Applications organized by ANGRAU at RARS, Guntur: May 22, 2025
	External Member for recruitment of Lab Assistants under the 'SBI ARISA-AI, Robotics and IoT for Smart Agriculture' at AgHub Foundation, PJTAU, Hyderabad: May 29, 2025
	Member, Working Group on Coconut Productivity Survey of Coconut Development Board, Kochi: Jul. 11, 2025
	Member, RAC Meeting of ICAR-National Institute of Research on Commercial Agriculture (formerly ICAR-CTRI), Rajahmundry: Nov. 4, 2025
	Guest of Honour, Insight International School-Mehdipatnam Sports Day Event at NAARM Playgrounds: Nov. 22, 2025
	Chairman of the 11 th International Conference on Statistics for Twenty-First Century-2025 in the session on 'Statistical and Machine Learning Techniques for Agricultural Systems' (Online), organized by University of Kerala during Dec. 16-19, 2025
Dr. D. Damodar Reddy	External Expert for review of PG and Ph.D. synopses, Department of Soil Science & Agricultural Chemistry, PJTAU, Hyderabad.
Dr. Siva Kumar S.	Examiner/Paper-setter for Maharana Pratap University of Agriculture and University, Udaipur (May 22, 2025)
	Examiner/Paper-setter for Sardar Vallabhbhai Patel University of Agriculture & Technology, Meerut (Jun. 24, 2025)
	Second Prize (Oral Presentation) at the International Conference on Recent Advances in Food Science and Technology, CHEFT, UHS, Karnataka (Jan. 2025)
	Second Prize (Poster Presentation) at the International Conference on Recent Advances in Food Science and Technology, CHEFT, UHS, Karnataka (Jan. 2025)
	Third Prize (Poster Presentation) at the International Conference on Recent Advances in Food Science and Technology, CHEFT, UHS, Karnataka (Jan. 2025)
	Convener of Technical session at the Southern Dairy Summit-2025, NIMHANS, Bengaluru
	Chairman Technical session 3 climate change and mitigation strategies in the SVAHE conference, Mhow, Jabalpur, MP (Oct. 2025)
	Expert for selection committee member for YP and RA post in ICAR-IIRR, Hyderabad on Apr. 15, 2025
	Expert Panel member at the International Conference on Recent Advances in Food Science and Technology: A Way Forward' in CHEFT, UHS, Devihosur-Haveri, Karnataka during Jan. 22-24, 2025
	Expert in Aggravate 25, National level Event organised by MIT College of Agriculture and Technology, Musiri in Jun. 2025
	Expert for scrutinising the applications for the different posts in CS Azad University of Agriculture and Technology, Kanpur, Jul. 2025

Name of the Staff	Honors/ Awards/ Recognitions
Dr. Siva Kumar S.	Expert for selection committee member for YP 1 post in NABL accreditation of Avian Health Lab of ICAR-DPR, Hyderabad on Aug. 19, 2025
	Associate Editor, International Journal of Veterinary Sciences and Animal Husbandry
	Associate Editor, The Pharma Innovation International Journal
	Executive Committee member, Society for Veterinary and Animal Husbandry Extension Education (SVAHE)
Dr. Ranjith L.	Best Performance Award for the successful implementation of NABARD-funded Farm Scale Promotion Fund project in the 44 th Foundation Day NABARD in Aug. 2025
	Sub-Editor, Indian Journal of Fisheries
Dr. Ramesh Naik M.	Joint Secretary for Indian Society of Oilseeds Research, ICAR-IIOR, Hyderabad
	Editorial board member in International Journal of Economic Plants
	Member of selection committee for the post of Lab Assistants under SBI ARISA Lab Project at AgHub, PJTAU, Hyderabad on Jun. 17, 2025

Table 13.3. Technologies/ Products recognized by ICAR during 2025

Sl.No.	Name of the Technology/product	Developers
(i)	Knowledge-Based Product: Public-Private Partnership of Agricultural Extension in India – Issues and Strategies	Venkattakumar, R., Avinashilingam, V. and Rathore, S.,
(ii)	Knowledge-Based Institutional Technology Product: National Sensitization Framework for Students in Entrepreneurship Education in Agriculture, Veterinary and Fisheries Sciences	Venkattakumar, R., Avinashilingam, V. and Rathore, S.,
(iii)	Technology Documentary on White Button Mushroom Cultivation under Natural Conditions	Shirur, M., Annepu, S.K., Manikandan, K. and Sharma, V.P.,
(iv)	Technology Documentary on “Shiitake Mushroom Cultivation Technology”	Shirur, M., Annepu, S.K., Barh, A. and Sharma, V.P.,
(v)	A model on farmers’ accelerator for resilience with markets (FARM), 2025, Indian Council of Agricultural Research.	Venkatesan, P., Sivaramane, N., Venkattakumar, R., Senthil Vinayagam, S., Bihari, B., Mooventhana, P., Kumar, S., Barik, N.K., Kumar, R. and Sanwal, S.,
(vi)	Knowledge – bases product: Public – Private partnership of Agricultural Extension in India Issue and Strategies.	Sontakki, B.S., Avinashilingam, N.A.V., Venkattakumar, R., Vinayagam, S.S., Venkateshwarlu, G. and Rao, C.S.
(vii)	Copepod nauplii accumulating and harvesting device.	Anikuttan, K.K., Santhosh, B., Tamilmani, G., Rameshkumar, P., Sakthivel, M., Sankar, M., Bavithra, R., Vinod, K., Abdul Nazar, A.K., Jayakumar, R., Divu, D., Suresh, K.M., Swathi Lekshmi, P.S., Suresh, V.V.R., Rao, G.H., Thomas, T., Aneesh, U., Jayasingh, M. and Gopalakrishnan, A.
(viii)	Methodology to assess the multi-hazard vulnerability of the coastal districts/states of India and generation of an interactive atlas of Multi Hazard Vulnerability of India	Gills, R., Padua, S., Ramachandran, C., Varghese, E., Ratheesh, K. R., George, G., Bright, R. P., Vivekanandan, E., Jayasankar, J. and Gopalakrishnan, A.

CONCLUDED PROJECTS

In-house

International Women's Day

The Academy celebrated 'International Women's Day' on Mar. 7, 2025. Dr. Anuradha Agrawal, Director, ICAR-DKMA, New Delhi, in her keynote address as the Chief Guest on the occasion mentioned that despite progress, gender inequality persists in scientific leadership. She mentioned that women remain underrepresented in top positions within research institutions and face difficulties balancing career advancement with caregiving responsibilities and hence, emphasized the need for sharing of caregiving responsibilities by men. Dr. Gopal Lal, JD, ICAR-NAARM mentioned that International Women's Day was not just about one day of celebration and that it is about a continuous commitment to gender equality, women's rights and social justice. Dr. R.C. Agrawal, DDG (Ag. Edn.) and Director, ICAR-NAARM highlighted the crucial role that women have played in household management and financial decision-making, both directly and indirectly and reiterated that there is a need to promote gender equality with accelerated action. About 150 members including permanent and contractual staff, participated in the program. **[Program Coordinator: Dr. B. Nirmala]**

World Creativity and Innovation Day 2025

The Academy celebrated World Creativity and Innovation Day on Apr. 21, 2025 with an engaging program designed to foster innovation and entrepreneurial spirit within the agricultural research and academic community. The event was participated by about 40 enthusiasts including faculty, researchers and students, who actively contributed to discussions on the role of creativity in addressing global agricultural challenges. Dr. Ranjit Kumar inaugurated the event, highlighting the importance of innovation in building a sustainable and inclusive agricultural sector. A keynote address on 'Innovation strategies and product management for early entrepreneurs' was delivered by Dr. Sharath Chandra Reddy Aduri from Osmania University highlighting valuable insights into strategic innovation within the agri-

business ecosystem. The program also included a prize distribution ceremony recognizing winners of an idea writing competition for PGDM-ABM students of NAARM coordinated by Dr. Sanjiv Kumar. In his closing remarks, Dr. V. Ramasubramaniam, JD, reaffirmed ICAR-NAARM's commitment to nurturing creativity as a driver of impactful research and rural development. The event concluded with a vote of thanks by Dr. K. Srinivas. [**Program Coordinator:** Dr. Ranjit Kumar]

FOCARS Syllabus Review Committee Meetings

Three FOCARS Syllabus Review Committee Meetings were held at the Academy (Apr. 15, May 7 and May 23, 2025) and deliberations were held to revise the FOCARS program, objectives, structure, duration, course content and pedagogy. The Committee critically examined the structure and duration of the Field Experience Training (FET) module, institute orientation, professional attachment training (PAT) and related matters. Six groups were formed by the Chair for in-depth deliberations and suggestions on their domain areas. The subgroups came out with draft recommendations in the first meeting. The 2nd meeting of the Committee considered previous deliberations/ suggestions based on which recommendations were further modified. The 3rd meeting of the Committee did

Fig. 17.6. FOCARS Syllabus Review Committee Meeting (Apr. 15, May 7 and May 23, 2025)

comprehensive deliberations and finalized the recommendations. [Coordinators: Dr. Gopal Lal, Dr. Ramasubramanian V. and Dr. Umesh Hudedamani]

5th Graduation Ceremony of PGDM-ABM Students

The Academy organized its 5th Graduation Ceremony of the Post Graduate Diploma in Management (ABM) students on Apr. 26, 2025, which was attended by 400 participants. A total of 176 students from the 2021-23, 2022-24, and 2023-25 batches received their P.G. diplomas. The Chief Guest, Padma Bhushan awardee and former DG, ICAR, Dr. R.S. Paroda addressed the gathering along with other distinguished guests from academia and industry. They encouraged graduates to contribute meaningfully to the development and growth of agribusiness in the country. Gold medals were awarded to Ms. Alana Raphy, Ms. Samhitha Padhi and

Fig. 17.7. 5th Graduation Ceremony of PGDM-ABM Students (Apr. 26, 2025)

Ms. Seeram Supriya, while Director's medals were bagged by Mr. Umang Kumar Shyam, Mr. Vinay Kumar and Mr. Monish Gowda. Diplomas were conferred by the Chief Guest, Guests of Honor, and Academy officials.

11th International Day of Yoga (IDY2025)

The Academy celebrated the 11th International Day of Yoga on Jun. 21, 2025 with the theme 'Yoga for One Earth, One Health', as per the guidelines issued by the Ministry of AYUSH, Govt. Faculty members, officers, staff, campus residents, project personnel, contractual/ outsourcing staff,

a-IDEA team members and training participants of Management Development Program on Leadership Development attended the event (about 100). Dr A. Debnath explained the importance of yoga and demonstrated common yoga protocol for the benefit of all the participants. Dr Gopal Lal, Director, ICAR-NAARM and Dr. R.C. Agrawal, Former DDG (Agri. Edn.) attended the program. Ahead of IDY2025 event, an expert session on 'The yoga way to unlock happiness and well-being' was delivered by Shri Deepak Lanka, Teacher from The Art of Living, Hyderabad. **[Committee Chairman: Dr. Ramasubramanian V.]**

Fig. 17.8. 11th International Day of Yoga (IDY2025) (Jun. 21, 2025)

Launch of PM Dhan Dhaanya Krishi Yojana and National Mission on Pulses

A launch program of PM Dhan Dhaanya Krishi Yojana (PMDDKY), Mission for Aathmanirbharta in Pulses and other schemes was attended by 311 participants of the Academy (50 farmers, 200

staff and 60 PGDM-ABM students) on Oct. 11, 2025. The Hon'ble Prime Minister launched the schemes through video conferencing and spread awareness among all the stakeholders including farmers. The Chief Guest of the program, Hon'ble Member of Parliament from Chevella

Fig. 17.9. Launch program of PM Dhan Dhaanya Krishi Yojana, Mission for Aathmanirbharta in Pulses (Oct. 11, 2025)

Shri Konda Vishweshwar Reddy, was present in person at the Academy. Before the live streaming by Hon'ble PM, the purpose of the program was briefly narrated followed by address of the Chief Guest. In the afternoon session, Dr. Ramesh Naik explained the principles and practices of natural farming, which was followed by a talk regarding farmers' grievance redressal portal by Dr. L. Muralikrishnan; GST reduction benefits were explained by Dr. Sanjiv Kumar and the last session was on flagship schemes of GoI handled by Dr. B. Nirmala. **[Program Coordinators: Dr. Ramasubramanian V. and Dr. M. Ramesh Naik]**

NAARM celebrates 50th Foundation Day on Sept. 1, 2025

The Academy celebrated its Golden Jubilee Foundation Day on Sept. 1, 2025. The program was graced by Dr. Gurbachan Singh, Former Chairman, ASRB, New Delhi as Chief Guest; Dr. Govindarajulu Chintala, Former Chairman,

NABARD & Chairman, RAC, ICAR-NAARM; Prof. M. Gnana Prakash, Vice Chancellor, PVNR Telangana Veterinary University, Hyderabad and Dr. Seema Jaggi, ADG (HRD), Agri. Edn. Div., ICAR, New Delhi as Guests of Honor. Dr. Singh commended the Academy for its remarkable contributions through capacity building, policy papers and the PGDM-ABM program. He emphasized the need to elevate NAARM to international standards through collaborations with leading research organizations and universities in the world. Earlier, Dr. Gopal Lal, Acting Director of ICAR-NAARM welcomed the guests and narrated the achievements of the Academy in last one year. On this occasion, annual awards were distributed to selected/nominated scientists, technical and administrative staff, skilled support staff, young professionals, project staff, students, start-ups, emerging FPOs, recruiters, farmers and media personnel.

Fig. 17.10. Celebration of Academy's 50th Foundation Day (Sept. 1, 2025)

Vigilance Awareness Week: 'Vigilance: Our Shared Responsibility'

The Academy observed Vigilance Awareness Week from Oct. 27 to Nov. 2, 2025, emphasizing collective responsibility in combating corruption. The week kicked off with the Director Dr. Gopal Lal administering the Integrity Pledge to all staff and Scientist-Probationers. Key addresses followed from Vigilance Officer Dr. D. Thammi Raju, who outlined preventive vigilance roles for employees and the public; CAO (SG) Shri Vivek Purwar, stressing AIPR, CCS rules, and time management; and Director highlighted

accountability, sincerity, integrity, and vigilance in procurement and finance. Engaging community events included a painting competition on Oct. 28 for 50 students from Classes VIII and X at ZPHS School, Narkhuda Village, Shamshabad Mandal. NAARM's PGD-ABM students shone in an elocution contest, with 60 participants delivering inspiring speeches on integrity. An Awareness Grama Sabha in Pothireddypalli, Kulcharam Mandal, Medak, drew 48 villagers, elders, youth, and officials. Staff participated in an essay writing competition in English, Hindi and Telugu. Dr. G. Lal awarded prizes to winners.

Janjatiya Gaurav Diwas 2025

On the occasion of Janjatiya Gaurav Varsh Pakhwada 2025, commemorating the 150th Birth Anniversary of Bhagwan Birsa Munda, an awareness program on the socio-economic development of tribal farm families and other themes prescribed by the Ministry of Tribal Affairs was conducted in 15 Tanda villages across Nagarkurnool, Mahbubnagar, Medak and Nizamabad districts of Telangana, and one village in Kurnool district of Andhra Pradesh during Nov. 1-15, 2025. During the program, farmers were apprised of various central government schemes for the welfare of tribal farmers and activities such as education and skill development, livelihood and entrepreneurship, painting competitions, exhibitions showcasing tribal culture, art, traditional agricultural practices and indigenous knowledge as well as screening of documentaries and short films on tribal history and culture were organized. The contributions of Birsa Munda towards the upliftment and welfare of tribal communities were also highlighted. About 520 farmers participated in the program. [Program Coordinator: Dr. M. Balakrishnan]

Fig. 17.11. Janjatiya Gaurav Varsh Pakhwada 2025

PM-Kisan Samman Nidhi Program

The Academy organized PM-Kisan Samman Nidhi Program in association with South India Natural Farming Summit 2025 on Nov. 19, 2025, in which the Hon'ble PM released the 21st installment. The program was graced in person by Shri Payal Shankar, Hon'ble MLA,

Adilabad and Shri Palle Ganga Reddy. Around 300 stakeholders including farmers participated in the program. [Program Coordinators: Dr. R. Venkattakumar and Dr. M. Ramesh Naik]

Fig. 17.12. PM-Kisan Samman Nidhi Program (Nov. 19, 2025)

Awareness Program on Prevention of Sexual Harassment of Women at Workplace (POSH Act)

An awareness program on the Sexual harassment of women at workplace (Prevention, Prohibition and Redressal Act, 2013) was organised at the Academy on Dec. 9, 2025. Smt. P. Padmavathi, Member (External), ICC and In-charge, Kasturba Gandhi National Memorial Trust, elaborated upon the provisions of POSH Act 2013. She also pointed out that this Act is applicable not only in government offices but also in private/unorganized and organized establishments. Shri Vivek Purwar, HoA & Registrar, ICAR-NAARM, elucidated the punishments for the offenders. Dr. Gopal Lal, Director, chaired the program and emphasised the need to provide a safe and dignified workplace for women free from all forms of harassment and intimidation. The program was attended by about 180 staff of the Academy. [Program Coordinator: Dr. B. Nirmala]

Fig. 17.13. Awareness Program on Prevention of Sexual Harassment of Women at Workplace (Dec. 9, 2025)

National Kisan Diwas

The Academy celebrated 'National Kisan Diwas' with great enthusiasm on Dec. 23, 2025 at Siddhapur village, Kothur Mandal, Rangareddy. The theme of the event was 'Viksit Bharat-2047: The Role of Farmer Producer Organizations (FPOs) in Taking Indian Agriculture to the Global Level'. Main objective of the program was to empower

Fig. 17.14. National Kisan Diwas (Dec. 23, 2025)

farmers by promoting sustainable agricultural practices. The farmers who made significant progress in vegetable and paddy cultivation namely Eshamoni Anjaiah, Gundemoni Krishnaiah, MD Shareef, Yacharam Anjireddy, Eshamoni Balaraju and Gundemoni Parvathalu were felicitated. **[Program Coordinators:** Dr. R. Venkattakumar and Dr. P. Venkatesan]

Rashtriya Karmayogi – Jan Seva Program (Batch I)

A one-day training program on 'Rashtriya Karmayogi' was organized as part of Government's flagship program 'Mission Karmayogi' on Dec. 30, 2025, which was attended by 26 staff of the Academy. The training focused on the concept and objectives of Rashtriya Karmayogi, principles of Jan Seva (service to citizens), institutional accountability, the role of public servants in delivering efficient, transparent and responsive services. The program adopted an interactive approach, incorporating lectures and discussions that encouraged active participation. Overall, the program contributed positively to capacity building and reinforced Academy's commitment to excellence in public service delivery. **[Program Directors:** Dr. Ranjith L. and Dr. Yashavanth B.S.]

Fig. 17.15. Rashtriya Karmayogi – Jan Seva Program (Batch I) (Dec. 30, 2025)

Swachhta Special Campaign 5.0

A Swachhta Special Campaign 5.0 was organized for Institutionalizing Swachhta and Minimizing Pendency in Government Offices during Oct.2-31, 2025. As part of the Campaign, cleanliness activities were undertaken across 26 sites in the campus. An attempt was made to identify and collect scrap from the campus (i.e., old bus, old newspaper etc.), which were sold through online bidding process generating a revenue of Rs. 2,94,794/-. In addition, large space was created by disposal and clearing of office pendency. **[Program Coordinator:** Dr. M. Balakrishnan]

Swachhata Pakhwada 2025

Swachhata Pakhwada 2025 was observed by the Academy during Dec. 16-31, 2025 with a series of cleanliness and awareness activities across the campus and nearby communities. The program began with the Swachhata Pledge and included awareness training on waste-to-wealth initiatives, installation of a mobile vermi-compost unit, disposal of old records in office and campus cleanliness drives. Activities focused on sanitation in residential colonies, plantation drives, plastic waste reduction, recycling of

Fig. 17.17. Swachhata Pakhwada 2025 observed by the Academy (Dec. 16-31, 2025)

wastewater and composting of organic waste. Community outreach through shramdaan, Kisan Diwas celebrations, school competitions, signature campaigns, rallies and media engagement ensured widespread participation. **[Program Coordinators:** Dr. Laxman M. Ahire, Dr. R. Venkattakumar, Mr. Danam Murahari]

NAARM's Podcast Series on Agricultural Leadership

A podcast series on Agricultural Leadership has been initiated with the objective of highlighting contemporary leadership practices, experiences and insights relevant to agricultural sector. The series aims to provide learners, professionals and stakeholders with practical perspectives on leadership, innovation and decision-making in agriculture through expert interactions and real-world narratives. By featuring experienced leaders and practitioners, the podcast supports capacity building, inspires young professionals and promotes informed leadership for sustainable agricultural development. Three podcasts were

Fig. 17.18. Recording for Podcast on Agricultural Leadership

recorded and released in Academy's YouTube channel during the year, with Dr. Gurbachan Singh, Dr. N.K. Krishna Kumar and Dr. P.K. Joshi as experts/ leaders. **[Podcast Implementation Committee:** Dr. R. Venkattakumar, Dr. G.R.K. Murthy and Dr. Dipesh Debnath]

Farm Management and Improvement Programs

The Academy has a functional farm section that maintains, manages and improves its orchards, floriculture block, avenue plantation, landscape gardens, plant propagation unit, polyhouse, herbal garden, agrobiodiversity park and children park in 31 ha area within the clean and green campus. About 5000 visitors including scientists, students, farmers, enthusiasts, researchers and trainees of various training programs visited the farm last year. This year, orchard block was developed to consist of mango (2.0 ha), sweet lime (1.5 ha), sapota (0.25 ha), aonla (0.25 ha), custard apple (1.0 ha), phalsa (0.5 ha), and many other fruits such as breadfruit, rose apple, star fruit, water apple and aamla were grown in about 6.5 ha land.

The floriculture block comprises roses (HT rose, Kakinada rose, Kashmiri Gulab, Button rose), Marigold, Cosmos, *Chrysanthymum* and Golden rod (*Solidago nemoralis*), which were newly planted in an area of 1.0 ha. The cut flower of roses, tube rose and golden rod are used time-to-time for flower arrangements and also used for flower bouquets during official functions.

Fig. 17.19. A view of Newly developed Rose Garden at ICAR-NAARM

Plantation near Girls Hostel to create aesthetic value

The unutilized area at Pratibha Girls's Hostel which was fully covered with wild bushes, grasses and weeds were removed and brought under plantation with ornamental colourful foliage plants on 0.75 acres and the existing native tree species were pruned and trained. In this area *Azadiracta indica* (Neem Tree), Tamarind trees existed which were trimmed and other ornamental plants such as *Acalipha*, *Eranthimums*, *Euphorbia milli*, *Hibiscus*, *Arelia*, *Dressenia* and *Hibiscus* were planted.

Fig. 17.20. A view of new plantation near Girl's hostel

New plantation at Farmer's Guest House

The newly constructed Farmer's Guest house with area of around 0.5 acre was brought under plantation by using the existing plant material propagated at our Plant Propagation Unit. Now this area is covered with the plantation of *spider grass*, *ribbon grass*, *dressenia*, *acalypha*, *arelia* as well as turf grass (St. Augustine).

Fig. 17.21. New plantation at Farmer's Guest House

Roadside berms from Farmers Hostel towards the Sports Complex both side berms were planted with ornamental and flowering plants consisting of *Arelia* (green), *Arelia* (stripped) *Arelia* (paper plate), *Dressenia* (Pink), *Eranthimum* (Yellow & Green) and variegated *Acalypha* to beautify the campus and to create aesthetic value.

Herbal Garden: Pride of the Academy

Herbal garden was developed at the Academy in 875 sq.m. area sometime back consisting of 50 species including medicinal, herbal and aromatic plants. Maintenance was taken up during this year to improve the same. This herbal garden turns out to be very informative for students, farmers and visitors. The herbal garden has *Citronela*, *Coleus*, *Morinda Citrifolia*, *Vasa*, Multivitamin plant, Insulin plant, *Vinca rosea*, *Ashwagandha*, *Vettiver*, *Henna*, *Vavili*, *Saraswati*, *Machipatri*, *Vamaku*, *Jalabrahami Tippatiga*, *Lemongrass* etc.

Fig. 17.22. School Children visit Herbal Garden

Plant Propagation Unit

The plant propagation unit (0.5 ha) of the Academy plays a major role in creating and maintaining aesthetic value in the campus. Annually more than 15,000 plants are propagated and utilized for plantation within the campus as well as distributed among the farmers on special occasions. In 2025, about 16,000 Ornamental/ Flowering/ Herbal/ Medicinal/ Climbers were propagated and planted in various areas of the campus. The propagated plants were *Hibiscus*, *Dressenia*, *Arelia*, *Brugmentia*, *Ribbon grass*, *Money plant* creepers, *flowering creepers*, *Jatropha*, *Golden rod*, *Tube rose*, *Jasmine* *Plumeria*, *Insulin*, *Multivitamin*, *Tulasi*, *Ganesh creeper*, *Yellow Techoma* and *Jasmine* species.

Hindi Pakhwada Celebration

The Hindi Pakhwada (Official Language Fortnight) was celebrated at the Academy during Sept. 14-26, 2025. Programs such as Hindi essay writing, note-taking, singing, just one minute, debate, and antakshari were held for officers and staff. A scientific paper abstract presentation was also organized specifically for scientific community. Debate and singing competitions were also organized for FOCARS trainees and PGDM students. Closing ceremony of the program was held on Sept. 26, 2025, with welcome address by Mr. Mukul Raj Singh, SAO. Dr. J. Renuka, JD (OL), highlighted the Hindi activities and gave a detailed report of the fortnight. **[Program Coordinator: Dr. J. Renuka]**

Meeting of Town Official Language Implementation Committee II

A six-monthly meeting of the Town Official Language Implementation Committee II was held at the Academy on Oct. 15, 2025. The meeting was attended by Central Government member offices under the auspices of the Committee and chaired by Shri G. Narendra Kumar, IAS, Director General, NIRD&PR. Dr. Gopal Lal, Director,

ICAR-NAARM, underlined the importance of ensuring the presence and participation in these meetings related to ensuring compliance of official language. Dr. Jyotis Satyapalan, Professor and Chairperson (CDC), participated on behalf of Chairperson, TOLIC and spoke on the importance of regional languages along with Hindi. Shri Anirban Kumar Biswas, Deputy Director (Implementation), South Regional Office, Bengaluru, discussed the progress reports of the member offices. The meeting concluded with vote of thanks by Mrs. Anita Pandey, Assistant Director (OL) and Member-Secretary, TOLIC. **[Program Coordinator: Dr. J. Renuka]**

Fig. 17.25. Meeting of Town Official Language Implementation Committee II (Oct. 15, 2025)

Meeting of Parliamentary Official Language Committee

A meeting of Parliamentary Official Language Committee (Sub-com. 2) was organized on Nov. 19, 2025 at Hyderabad. Participants and guests in the meeting were Dr. Gopal Lal, Director, ICAR-NAARM, Dr. Ramasubramanian V, Head, RSM Div., Mr. Vivek Purwar, CAO (SG), Mr. T.D.S. Prakash, CF&AO, Dr. J. Renuka, JD (OL), Dr. Seema Jaggi, ADG (Ag. Edn. Div.), Mr. Bhupendra Singh Parswal, CTO (ICAR) and others.
